

Mayor's Letter

I hope you are enjoying your summer thus far and are taking time to relax and enjoy some of the local events at the Town Center.

The Village just hosted its 7th annual "Summer in the Center" festival at the Town Center. The amount of preparation it takes to host a community festival is mind-boggling but thanks to dedicated staff, hard working volunteers, generous corporate sponsors, a creative event planning firm and good weather, this past festival was one of our finest yet. I hope you all had a chance to taste the food, listen to the music, enjoy some of the adult and children programs and soak up the summer weather.

For many years now, the Village has worked with local volunteers, civic groups and our business community to host an Earth Day cleanup of Community Park as well as a Pond & Stream Sweep to remove debris from the more than 30 local detention

ponds and sections of Klein & Thunderbird creek as part of American Rivers week. The April 24th cleanup of Community Park was very successful. Thanks to **Kurt Mika** and employees from Home Depot, **Vanessa Roth, Jackie Bush** and members of the Outreach Community Center's Teen Leadership program, Meyer Material for in-kind donation and the other residents who helped remove 20 cubic yards of debris and make repairs to the recreational equipment.

On April 4th, members of Boy Scout Troop 98 presented the colors and the regularly schedule Board meeting. To this end, I would like to thank **Kevin Burkland, Tony Gates, Ben Jalove, Sam Julian** and **Lucas Morrow** for this honor.

On May 17th, the Village received a formal Notice of Intent from Flood Brother's Disposal Co. to file a request for a Waste Transfer station siting permit on Friday, June 11th. The location of the property for the proposed siting application is situated on the north side of Fullerton Ave., between 315 N. Fullerton to the west

and 325 N. Fullerton Ave. to the east. The proposed siting application arrived, and the Village Board whose customary role is legislative changed to judicial in nature with respect to the siting request. While members of the community will look to the Village Board for their position on this matter, they will not be in a position to comment similar to what is required of a judge hearing evidence in a trial. The Village has never considered a request of this type and so patience is asked while the community, elected officials and staff prepare for the hearings. When public hearings are scheduled, I encourage residents and the community at large to actively participate in the process so this matter can be carefully considered. For more basic information on the process, please turn to the article on page 5 entitled "**Waste Transfer Update: The Process & Citizen Involvement**".

I invite you to attend the 17th annual Independence Day Parade at 10 a.m. on Saturday, July 3rd and the Patriotic Celebration at the Town Center beginning at 6 p.m. which will include live music, food, and a fabulous choreographed fireworks display. I want to personally thank **Toinette Consalvo, Ralph Armstrong, Jim Walsh, Kim Gieser, Linda McCarthy** of the 4th of July Parade Committee and the many residents who generously volunteer their time to make this a memorable community event. I want to personally invite all residents to join in the community's celebration of our nation's independence.

In closing, I wish all of you a safe and enjoyable summer and hope to see each of you at upcoming Town Center summer concert series and the 2nd Annual Culture Counts! Multi-Cultural Festival scheduled for Saturday, September 11th at the Town Center.

Sincerely

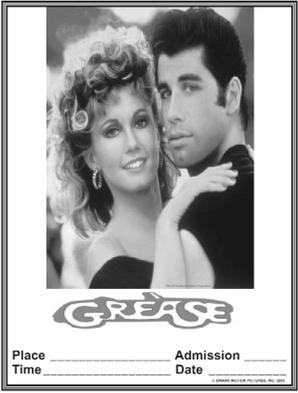

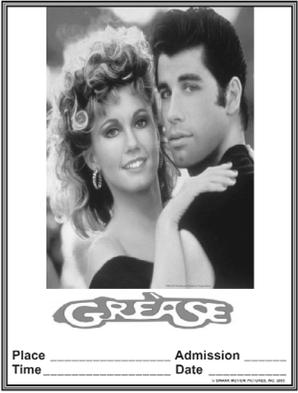

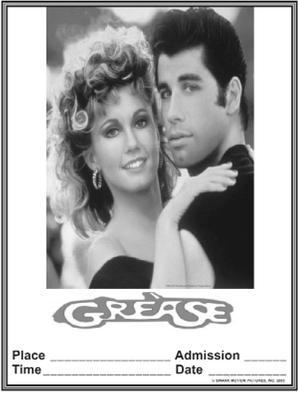

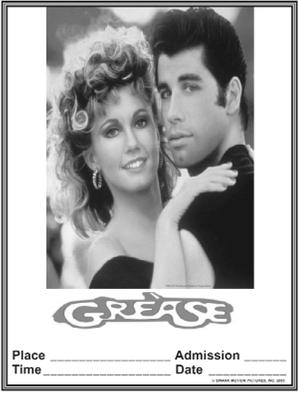

Ross Ferraro
Mayor

2nd Annual Culture Counts! Multi-Cultural Festival

Experience first-hand the transforming power of multiculturalism on Saturday, September 11th from 4 -9 p.m. at the Carol Stream Town Center. An eclectic evening of native dance, world music and ethnic foods caps off the 2004 concerts series. Bring your family, friends and neighbors to sample the sights, sounds and tastes of distant worlds right in your own back yard. The entertainment lineup includes some of the finest area cultural dancers and musicians as well as an authentic world craft market under the festival tent.

Dance:

Sanskriti Eastern Indian Dance Ensemble (India)
Filipino American Cultural Foundation Dancers (Philippines)
Silk & Thistle Scottish Dancers (Scotland)
Mexican Regional Dancers (Mexico)
Alyo Children's African Dance Theater

Music:

Karma Sutra (Divine Ways)- This Chicago-based band with local roots perfectly blends the mysticism of eastern culture, the soulfulness of Indian chant with the eclectic arrangements and techno-beat of western culture. Fans of exotic **world music**, with a distinct eastern flavor will love this special performance.

Banda Rika - Has established themselves as one of the areas finest **Tropical Latin** bands and has shared the stage with several Latin greats including Arturo Sandoval, Grupo Niche and Grupo Kaos. The 10-member orquesta (band) has a diverse musical repertoire consisting of Salsa, Merengue, Cumbia, and Bachata.

Food:

India Palace (Indian)
Acapulco Taqueria (Mexican)
Soul Delicious (Soul)
Culver's (Frozen Custard)

Crafts:

Ten Thousand Villages

Attend the 21st Annual National Night Out in Community Park

On Tuesday, August 3rd, the National Association of Town Watch and the Village's Police Department invites Carol Stream residents to join with communities nationwide to participate in the 21st annual National Night Out Against Crime and Drugs. It is estimated that 30 million American residents from coast-to-coast will participate in events to heighten crime awareness, generate support for local crime prevention efforts and help strengthen neighborhood relations. Residents are encouraged to lock their doors, turn on their home's exterior lights and spend the evening hours from 7-10 p.m. outdoors with their neighbors on patios, front porches, or at a neighborhood block party to demonstrate your support for the community's crime fighting efforts. Residents are invited to attend the Community Barbecue in Community Park beginning at 5 p.m. for food, refreshments, exhibits, carnival rides, live music and a candle-lit march. Though National Night Out is scheduled one day each year, it is a reminder that crime prevention and community building efforts must be supported each and every day of the year. Remember-**Lights On Means Out For Crime!!!** For more information on crime prevention, contact Sgt. Dan Hoffman at 668-2167.

2004-05 Village Budget & 3-Year Financial Plan

On April 2004, the Village Board reviewed the adopted the 2004-05 Annual Budget and 2005-2007 Financial Plan. The Financial Plan details the resources necessary to fund Village services and public improvements for the next three years.

The Village's Financial Plan is different from a traditional municipal budget that focuses on short-term revenues and expenditures (one year only). A Financial Plan broadens the scope to include three years of revenue and expense projections and a detailed financial forecasting model to substantiate these medium-range plans. A Financial Plan also differs from a traditional budget in that a multi-year financial plan serves as a planning, organizing, decision-making and communication tool for elected officials to anticipate how current policy decisions will impact tomorrow's finances.

The Village's Financial Plan consists of three distinct elements namely the Operating, Capital and Special funds. The budget includes \$24 million for the Operating Element and \$2.8 million for the Special Funds Element. The Capital element includes \$3.4 million in improvement projects.

The General Corporate Fund accounts for the majority of traditional government services. The General Corporate Fund Operating budget for this coming fiscal year totals \$17.5 million. Of that total, \$9.8 million is earmarked for Public Safety (Police), \$3.3 million for Public Works programs, \$1.5 million for Financial and Support Services, \$1.9 million for Community Development and Engineering Services, \$1.0 million for Legislative Board, Commissions, Legal Services and Village Administration. Approximately 56.1% or \$9.8 million of the General Corporate revenues are from state-shared sources such as sales, income and telecommunications tax receipts. **The Village does not levy a local property tax.**

Details of the 2004-05 Budget include:

An operating deficit is projected for all 3 fiscal years, although the projected deficit for FY05 of \$33,768 is very manageable. The Village Board and staff are currently working on solutions to address the budgets deficits projected in FY06 and FY07.

The proposed revenue projections for FY05 include sales tax receipts from the new Home Depot and Lowe's stores.

Due to budget constraints, 7 ¾-authorized positions remain frozen and have not been included in the budget.

With the recent completion of the Water Reclamation Center expansion project, sewer rates will increase .20¢/1,000 gallons for each of the next 2 fiscal years in order to pay debt service on the IEPA construction loan.

If you would like to review the proposed 2005-07 Financial Plan, copies are available at both the Village Hall and Library Circulation Desk.

Vehicle Registration Enforcement to Begin

Wednesday, June 30th was the final day of the 60-day regular vehicle registration period. **Beginning Thursday, July 1st, all residents must display a 2004 vehicle license sticker on their motorized vehicle(s) on the lower right corner of the front windshield.** The sticker fee doubles for vehicle's registered after June 30th. The Police Department will begin ticketing vehicles that don't display a 2004 vehicle sticker. The adjusted vehicle registration sticker fees s of July 1st is as follows:

Passenger Vehicle -	\$ 30
Motorcycle -	\$ 18
Seniors -	\$ 6
"B" Truck -	\$ 40
"C" Truck -	\$ 54
"D" Truck -	\$ 64
"E" Truck -	\$ 90
"F" Truck -	\$ 102
"G" Truck -	\$ 158

Residents and businesses that increase their vehicle fleets within the year are given 30 days to purchase a transfer vehicle sticker for a nominal fee from the Village. **The Village will honor a new resident's current vehicle sticker from their previous community until it officially expires.** For more information, phone the Village Receptionist at (630) 665-7050.

Register to Vote by the October 5th Deadline

You can register to vote at the Carol Stream Municipal Center located at 500 N. Gary Ave. Visit the Village Receptionist during normal business hours to register to vote. Voter registration requirements include the following:

- **Must be a U.S. citizen;**
- **Must be at least 18 years of age by Election Day;**
- **Must be a resident of the precinct for at least 30 days;**
- **Must not be convicted and in jail.**

Waste Transfer Station Update: The Process & Public Involvement

Once a waste transfer station siting application gets filed with the Village, a 180-day process begins which is detailed below.

-14	Publish Public Notice 2- weeks before filing the siting application
0	Request for Siting Approval Submitted
50	Deadline for Establishing Hearing Dates
55	Deadline for Noticing Elected Officials- State Leg./Village/County Bd.
60	Deadline to Publish the 1st Legal Notice
75	Deadline to Publish the 2nd Legal Notice
82	Deadline for submitting Non-Testimonial Evidence
83	Deadline to Publish the Final Legal Notice
90	Public Hearings May Begin
90	Written Notice of Intent to Participate to be filed w/ the Clerk before end of 1st Public Hearing
120	Public Hearings Must Conclude
121	30-Day Public Comment Period Begins
150	30-Day Public Comment Period Ends
151	Hearing Board Members Begin Deliberations
180	Hearing Board Members Rule (Approve or Deny) on the Siting Request

Written public comments, opinions or questions to the Village Clerk's Office located at the Carol Stream Municipal Center, 500 North Gary Avenue, Carol Stream, IL 60188 Attn. **Waste Transfer Station Comments**. For information on the waste transfer siting application, visit the Village website at: www.carolstream.org/TransferStation/TransferStationInfoPage.htm or call the Village Manager's Office at 630-871-6250. A copy of the application is available for your examination during business hours at the Carol Stream Municipal Center located at 500 N. Gary Ave, at the Carol Stream Public Library, located at 616 Hiawatha Dr. and on the Village website at: www.carolstream.org/TransferStation/TransferStationInfoPage.htm.

The hearing process includes ample opportunity for residents and the community at large to participate by offering written or verbal testimony or by questioning. If you intend to participate in the hearing process, you should review the [Siting Ordinance # 2003-07-43](#) located on the Village website at: www.carolstream.org/TransferStation/SitingOrdinance.pdf for details on how to proceed. In addition, there will be a 30-day public comment period following the close of public hearings.

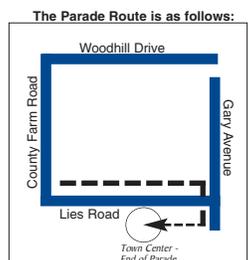

July 3rd Patriotic Celebration @ the Town Center

Enjoy food from Lou Malnati's Pizza starting at 6 p.m. and the music of 215 West who takes the Town Center stage at 7 p.m. This four-piece band has a diverse musical repertoire that includes **Motown, top 40, 50's Rock, Latin Dance, 40's Swing, 70's Disco, Rock & Blues**. 215 West will perform until 9:30 p.m. followed by a fireworks extravaganza choreographed to music. Shuttle bus service from Glenbard North H.S. to the Town Center, Windsor Park Manor, the Outreach Community Center and Colony Park will begin at 6 p.m. and continue until 11 p.m.

17th Annual Independence Day Parade

The local Parade Committee invites the community to join them in celebrating the 17th Annual Independence Day Parade on Saturday, July 3rd scheduled to kick off at 10:00 a.m. from Lies Road at County Farm Road. The parade's theme is "**Colors of Freedom**" and will feature entertainment for all age groups and include musical floats, clowns, balloons, and give-aways for children in attendance. The parade route is as follows:

2004 Parade Committee members extend their personal thanks to all those who donated their time, hard work and financial resources to make this annual event a community tradition. **If you have any questions about this year's event or would like to become a member of next year's planning committee, e-mail Toinette @ toniac1@aol.com**

The Buzz on West Nile Virus (WNV) - Infection Protection

Mosquito Bites - protecting yourself and family:

Sparingly apply insect repellent to exposed skin. The more DEET a repellent contains the longer it will protect you from mosquito bites. Choose a repellent that provides protection for the amount of time that you will be outdoors.

Avoid applying repellent to the hands of children;

Be sure to read and follow the manufacturer's directions for use, as printed on the product.;

Spray clothing with repellents containing permethrin or DEET since mosquitoes may bite through thin clothing. Do not apply repellents containing permethrin directly to exposed skin.

Whenever possible, **wear long-sleeved shirts and long pants outdoors.**

Place mosquito netting over infant carriers when outdoors.

Stay indoors during peak biting times - dawn, early evening & dusk.

Install or repair window and door screens.

Breeding Sites - reduce their number around your house:

Twice a week, empty water from flower pots, pet food and water dishes, birdbaths, swimming pool covers, buckets, barrels, and cans;

Check gutters for clogged down spouts;

Remove discarded tires and other items that collect water.

Check under your bushes, shed or deck for empty cans or bottles that can collect water.

Keep the length of your grass short.

Avoiding Exposure to Pesticide Spraying - those with upper respiratory or allergic conditions should follow take the following precautions to minimize possible exposure to pesticides:

Phone Clarke Mosquito Control Hotline at (800) 942-2555 for announcements about scheduled area spraying. and remain indoors during applications in the immediate area.

Those with chemical sensitivities or who feel spraying may aggravate a preexisting health condition, should consult their physician or local health department to inquire about special measures to avoid exposure.

When spraying is taking place in the immediate area, stay indoors, close windows and turn off window-unit air conditioners.

Reporting Dead Birds to the DuPage County Health Department - Dead birds may be a sign that West Nile virus is circulating between birds and the mosquitoes in the area. Remember that birds die from many other causes besides West Nile virus. **Dead crows and blue jays are important sentinels for detecting the West Nile Virus** and these dead birds will again be collected by the Health Department. Persons with questions may contact the West Public Health Center in Wheaton at (630) 682-7560.

Sewer Rate Increases 20¢

On February 17th, the Village Board approved Ordinance 2004-02-09 that increased the sewer rate by 20¢/1,000 gallons from \$2.00 to \$2.20. This sewer rate increase took effect on May 1, 2004 and will apply to water consumption through April 30, 2005. This is the 2nd of 3 annual 20¢/1,000 gallon rate increases needed to repay the IEPA construction loan used to fund the \$8 million Water Reclamation Center expansion. The final rate increase will take effect on May 1st of 2005.

Find Electronic Recycling Info on the Earth 911 Website

Earth 911 has partnered with the USEPA program to help communities learn more about the importance of recycling unwanted electronics. The EPA Plug-In to e-Cycling information is highlighted in the Earth 911 **Electronics** section on the left navigation bar of the Web site under "Information." This new section addition also provides Earth 911 and Plug-In to e-Cycling public partners with additional Plug-In resources including planning toolkits, press information and other support information. Visit the Earth 911 Electronics section at:

www.earth911.org/master.asp?s=lib&a=electronics/elec_index.asp

Property Improvements Require a Building Permit

Contact the Community Development Department at 871-6230 for information on codes, permit fees and the permit process before your project. Residents can access the local building code on line from the Village website at www.carolstream.org-Information Links/Code of Ordinances.

2004 Parkway Tree Program

The parkway planting area must meet the tree spacing requirements listed in the parkway tree ordinance. After the individual planting areas are approved, **the staff will invoice the resident for their purchase and payment will be required at that time.** You do **not** have to send payment with your initial order. Requests for tree plantings will be accepted through September 30th. If you are interested in this program, please complete and detach the order form and return to the **Carol Stream Public Works Department, 124 Gerzevske Lane, Carol Stream, IL 60188.** For any questions or concerns regarding the annual Fall Parkway Planting Program, please don't hesitate to contact the Public Works Department at **630/871-6260.** This year's tree selections are as follows:

COMMON HACKBERRY (Celtis Occidentalis)

Tolerant to harsh climatic conditions as well as to urban stress, this deep-rooted tree rarely lifts sidewalks. The rough, corky bark adds interest and resists damage. Broad ascending canopy, arching over time. Light green foliage turns yellow in the fall.

CHANTICLEER CALLERY PEAR (Pyrus Calleryana)

Narrow conical crown with white flowers in the spring and glossy leaves turning from gold to red then plum in the fall. Matures to a height of 35-40 feet.

SUMMIT GREEN ASH (Fraxinus Pennsylvannica)

Vigorous tree with a straight trunk and an oval crown. Leaves turn golden yellow in the fall. Matures to a height of 50-60 feet.

AUTUMN PURPLE ASH (Fraxinus Americana)

Upright oval crown that rounds out as it matures. Medium green leaves that turn reddish-purple in the fall. Matures at 40-50 ft.

RED SUNSET MAPLE (Acer Rubrum)

Outstanding variety with an upright dense branching habit. Bright green leaves in the summer turning to a brilliant red-orange in the fall. Excellent for street and lawn use. Matures to a height of 50 feet.

SHANTUNG MAPLE (Acer Truncatum)

Very attractive and hardy maple with a rounded crown. New growth is bronze and red changing to glossy green. Leaves turn golden yellow in the fall. Matures to a height of 20-25 feet.

SUGAR MAPLE (Acer Saccharum)

Oval crown with ascending branch habit and dense leaf cover. Leaves turn yellow, orange or red in the fall. Matures to 60-80 feet.

SKYLINE HONEYLOCUST (Gleditsia Tricanthos)

Excellent pyramidal form with a central leader. Lacy green summer foliage that provides a filtered shade pattern, allowing plants to grow underneath its branches. Matures to a height of 50-60 feet.

CAROL STREAM WATER QUALITY REPORT - 2003

The Safe Drinking Water Act Amendments of 1996 require that all community water systems provide information to their customers concerning the quality of their water. This report complies with this Act by providing information on the source of your drinking water, the results of water sampling, our compliance with drinking water regulations, as well as some brief educational material.

The Village of Carol Stream is committed to providing you with this information. If upon reading this report you should have any questions or wish additional information, you are encouraged to contact either Al Turner, the Director of Public Works, or Bob Hoffrage, the Water Division Supervisor and Chief Water System Operator at 871-6260. Copies of this Water Quality Report are available on the Village's web page at <http://www.carolstream.org>. Additionally, you are always welcome at the regularly scheduled Village Board Meetings that hold an informal Listening Post at approximately 7:30 p.m., prior to the 8:00 p.m. Board Meeting scheduled for every first and third Monday of the month.

The Village of Carol Stream receives Lake Michigan Water that is processed by the City of Chicago at the Jardine Water Filtration Facility, which is the largest purification plant in the world. The Jardine Water Treatment Facility is just north of Navy Pier on the Chicago lakefront. Lake Michigan is the source of water used to provide drinking water for Chicago and many suburban communities, including Carol Stream. For more information, contact their web page at <http://www.ci.chi.il.us/Water>. The Village of Carol Stream is a customer of the DuPage Water Commission who purchases the water from the City of Chicago and transports it to the member communities. Water is metered and then pumped into our distribution system and into the elevated and ground storage facilities.

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the USEPA's Safe Drinking Water Hotline (1-800-426-4791).

Lake Michigan as one of the Great Lakes is an excellent source of drinking water. However, all sources, including lakes, rivers and wells have a possibility of contamination, including contamination such as:

Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations and wildlife;

Inorganic contaminants, such as salts and metals, which can be naturally occurring or result from urban stormwater runoff, industrial, or domestic wastewater discharges, oil and gas production, mining or farming;

Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban stormwater runoff and residential uses;

Organic chemical contaminant, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban stormwater runoff and septic systems;

Radioactive contaminants, which may be naturally occurring or be the result of oil and gas production and mining activities.

Source Water Assessment

The Illinois EPA considers all surface water sources of community water supply to be susceptible to potential pollution problems. The very nature

of surface water allows contaminants to migrate into the intake with no protection only dilution. This is the reason for mandatory treatment for all surface water supplies in Illinois. Chicago's offshore intakes are located at a distance that shoreline impacts are not usually considered a factor on water quality. At certain times of the year, however, the potential for contamination exists due to wet-weather flows and river reversals. In addition, the placement of the crib structures may serve to attract waterfowl gulls and terns that frequent the Great Lakes area, thereby concentrating fecal deposits at the intake and thus compromising the source water quality. Conversely, the shore intakes are highly susceptible to storm water runoff, marinas and shoreline point sources due to the influx of groundwater to the lake.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. USEPA/CDC guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbial contaminants are available from the USEPA's *Safe Drinking Water Hotline (1-800-426-4791)*.

In order to ensure that our water is safe to drink, the USEPA prescribes regulations that limits the amount of certain contaminants in water provided by public water systems. FDA regulations establish limits for contaminants in bottled water, which must provide the same protection for public health.

Attached are several tables indicating the constituents that are regulated for which the Chicago/Carol Stream drinking water has been tested. The data is separated into data as tested by the City of Chicago as the parent supply of our drinking water and the Village of Carol Stream as the satellite supplier.

0316000 CHICAGO DATA TABULATED BY CHICAGO DEPARTMENT OF WATER

2003 Water Quality Data

-Definition of Terms-

Maximum Contaminant Level Goal (MCLG): *The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.*

Maximum Contaminant Level (MCL): *The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.*

Level Found: *This column represents an average of sample result data collected during the CCR calendar year. In some cases, it may represent a single sample if only one sample was collected.*

Range of Detections: *This column represents a range of individual sample results, from lowest to highest that were collected during the CCR calendar year.*

Date of Sample: *If a date appears in this column, the Illinois EPA requires monitoring for this contaminant less than once per year because the concentrations do not frequently change. If no date appears in the column, monitoring for this contaminant was conducted during the Consumer Confidence Report calendar year.*

Action Level (AL): *The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.*

Treatment Technique (TT): *A required process intended to reduce the level of a contaminant in drinking water.*

nd: *Not detectable at testing limits.*

n/a: *Not applicable*

CAROL STREAM WATER QUALITY REPORT - 2003

Detected Contaminants

Contaminant (unit of measurement) Typical Source of Contaminant	MCLG	MCL	Level found	Range of detections	Violation	Date of Sample
Microbial Contaminants						
TURBIDITY (%<0.3 NTU) Soil runoff. Lowest monthly percent meeting limit.	n/a	TT	100.000%	n/a		
TURBIDITY (NTU) Soil runoff. Highest single measurement.	n/a	TT=1NTUmax	0.250	n/a		
Inorganic Contaminants						
BARIUM (ppm) Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits.	2	2	0.020	0.019 - 0.020		
NITRATE (AS NITROGEN) (ppm) Runoff from fertilizer use; Leaching from septic tanks, sewage; Erosion of natural deposits.	10	10	0.357	0.305 - 0.357		
NITRATE & NITRITE (ppm) Runoff from fertilizer use; Leaching from septic tanks, sewage; Erosion of natural deposits.	10	10	0.357	0.305 - 0.357		
Disinfectants/Disinfection By-Products						
TTHMs [TOTAL TRIHALOMETHANES] (ppb) By-product of drinking water disinfection.	n/a	80	17.300	7.200 - 28.100		
HAA5 [HALOACETIC ACIDS] (ppb) By-product of drinking water disinfection.	n/a	60	9.100	6.700 - 12.800		
CHLORINE (as C12) (ppm) Drinking water disinfectant	4.0	4.0	1.32	0.02-1.32		
TOC [TOTAL ORGANIC CARBON] The percentage of Total Organic Carbon (TOC) removal was measured each month and the system met all TOC removal requirements set by IEPA						
Unregulated Contaminants						
SULFATE (ppm) Erosion of naturally occurring deposits.	n/a	n/a	17.200	15.600 – 17.200		

Contaminant (unit of measurement) Typical Source of Contaminant	MCLG	MCL	Level found	Range of detections	Violation	Date of Sample
State Regulated Contaminants						
FLUORIDE (ppm) Water additive which promotes strong teeth.	n/a	n/a	0.960	0.910 - 1.004		
SODIUM (ppm) Erosion of naturally occurring deposits; Used as water softener.	n/a	n/a	7.00	6.900 – 7.000		
Radioactive Contaminants						
BETA/PHOTON EMITTERS (pCi/l) Decay of natural and man-made deposits.	0	50	2.000	nd – 2.000		11/05/2001

Unit of Measurement

ppm - Parts per million, or milligrams per liter
 ppb - Parts per billion, or micrograms per liter
 NTU - Nephelometric Turbidity Unit, used to measure cloudiness in drinking water
 %<0.5 NTU - Percent samples less than 0.5 NTU
 pCi/l - Picocuries per liter, used to measure radioactivity

Water Quality Data Table Footnotes

TURBIDITY - Turbidity is a measure of the cloudiness of the water. We monitor it because it is a good indicator of water quality and the effectiveness of our filtration system and disinfectants.

UNREGULATED CONTAMINANTS - A maximum contaminant level (MCL) for this contaminant has not been established by either state or federal regulations, nor has mandatory health effects language. The purpose for monitoring this contaminant is to assist USEPA in determining the occurrence of unregulated contaminants in drinking water, and whether future regulation is warranted.

FLUORIDE - Fluoride is added to the water supply to help promote strong teeth. The Illinois Department of Public Health recommends an optimal fluoride range of 0.9 mg/l to 1.2 mg/l.

SODIUM - There is not a state or federal MCL for sodium. Monitoring is required to provide information to consumers and health officials that are concerned about sodium intake due to dietary precautions. If you are on a sodium-restricted diet, you should consult a physician about this level of sodium in the water.

CAROL STREAM WATER QUALITY REPORT - 2003 Water Quality Data

Regulated Contaminants Detected in 2003 (collected in 2003 unless noted)

Coliform Bacteria						
Maximum Contaminant	Total Coliform Maximum	Highest No. of Positive Total	Fecal Coliform or E. Coli Maximum	Total No. of Positive E. Coli or Fecal Coliform Samples in	Violation	Likely Source
0	5% of monthly samples are positive	5	Fecal Coliform or E. Coli MCL: A routine sample is total coliform positive, and one is also fecal coliform or E. Coli positive.	6	Yes	Naturally present in environment

Lead and Copper Last Sampled 9/30/2002								
Lead MCLG	Lead Action Level (AL)	Lead 90 th Percentile	#Sites Over Lead AL	Copper MCLG	Copper Action Level (AL)	Copper 90 th Percentile	# Sites Over Copper AL	Likely Source of Contamination
0 ppb	15 ppb	5 ppb	0	1.3 ppm	1.3 ppm	.013 ppm	0	Corrosion of household plumbing systems; erosion of natural deposits

Regulated Contaminants	Highest Level Detected	Ranges of Levels Detected	Units of Measurement	MCLG	MCL	Violation?	Likely Source of Contaminant
Disinfectants & Disinfection By-Products							
Total Haloacetic Acids [HAA5]	15	8.1-15.2	ppb		60*	No	By-product of drinking water chlorination
TTHMs [Total Trihalomethanes]	45	16.1-45.4	Ppb	n/a	80*	No	By-product of drinking water chlorination

*MCL Statement: The maximum contaminant level (MCL) for TTHM and HAA5 is 80 ppm and 60 ppm respectively and is currently only applicable to surface water supplies that serve 10,000 or more people. These MCLs will become effective 1/01/2004 for all groundwater supplies and surface supplies servicing less than 10,000 people. Until 1/01/2004, surface water supplies serving less than 10,000 people, any size water supply that purchases from a surface water source, and groundwater supplies serving more than 10,000 people must meet a state imposed TTHM MCL of 100 ppm. Some people who drink water containing trihalomethanes in excess of the MCL over many years experience problems with their livers, kidneys, or central nervous systems, and may have increased risk of getting cancer.

Note: The state requires monitoring of certain contaminants less than once per year because the concentrations of these contaminants do not change frequently. Therefore, some of this data may be more than one year old.

MCL (Maximum Contaminant Level): The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

MCLG (Maximum Contaminant Level Goal): The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

AL (Action Level): The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

ppm: parts per million ppb: parts per billion ppt: parts per trillion pCi/l: picoCuries per liter (measurement of radioactivity)

2003 Violation Summary Table		
Rule or Contaminant	Violation Type	Violation Duration
Coliform, Total (TCR)	MCL(TCR), Monthly	6/1/2003 to 6/30/2003
Health Effects: Coliforms are bacteria that are naturally present in the environment and are used as an indicator that other, potentially harmful, bacteria may be present. Coliforms were found in more samples than allowed and this was a warning of potential problems.		
Explanation: The source of the coliform bacteria is unknown because the six sites were resampled and found to be negative for coliform bacteria.		

Summer Blood Drive

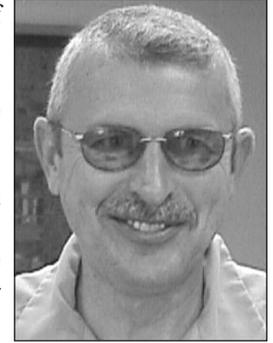

Saturday August 7th, from 8 am - Noon
at St. Luke Catholic Church located at 421 Cochise Ct.

Residents and the general public can schedule individual appointments by phoning the Heartland Blood Center at (630) 892-7055.

A Fond Farewell to...

Sgt. [Jim Petrick](#) retired from the Police Department on July 9th after 27 ½ years of service to the Carol Stream community. Sgt. Petrick's expertise in criminal investigations and evidence gathering and storage, as well as his most recent assignment as Supervising Sergeant of the Patrol Division has greatly contributed to the Police Department's success. I wish him health, happiness and success in his years of retirement.

[Orville Prehn](#) retired from the Public Works Department on June 11th after more than 34 years of public service, 26 years of which were for the Village of Carol Stream. Orville has been the main operator of the Village's Sewer Pumping Stations since 1978 and has had a profound effect on the construction of the Water and Sewer Systems. We wish him well in his retirement.

Education Scholarship Program for Graduate Students

The Association of Illinois Township Committees on Youth is accepting scholarship applications through August 6, 2004 from students pursuing graduate studies in social science and can demonstrate a proven commitment to serving youth and/or families. To be eligible for a \$500 scholarship, applicants must:

- Be enrolled in or be accepted by a graduate social service study program;**
- Submit a resume demonstrating work and volunteer service to youth and/or families;**
- Submit a 100-word paragraph detailing your education and career goals; and**
- 2 Letters of Recommendation**

Applications are available from your Township Office (Bloomingdale/Wayne/Milton).

School District #93 News

CCSD 93 New Student Registration

New student registration will be held at two sites, Jay Stream Middle School and Stratford Middle School, on Thursday, August 12, 2004. Families with students who will attend Carol Stream, Western Trails, Heritage Lakes or Jay Stream Middle Schools should register at Jay Stream Middle School, 283 El Paso Lane in Carol Stream. Families with students who will attend Roy DeShane, Elsie Johnson, Cloverdale or Stratford Middle Schools will register at Stratford Middle School, 251 Butterfield Drive, Bloomingdale. Registration at both sites will take place from 7:30 a.m.—2:00 p.m. and from 4-7 p.m. If you live within the district boundaries, please tell your new neighbors. For additional information, please call the District Office at (630) 893-9393.

New Web Address makes Us Easier to Find

Community Consolidated School District 93 has a new domain name. Internet visitors may now find us on the web at www.ccsd93.com. Both our new and old web addresses will function during a transition period but frequent users are encouraged to update their bookmarks to the new address. Beginning July 1st all District 93 email addresses will use the @ccsd93.com extension. For example, the Superintendent's new email address is: hgmitro@ccsd93.com. Old and new email addresses will continue to function for a brief time.

CCSD93
Working together, nurturing the potential

Historical Society To Hold September Event

On Saturday September 18 from 11:00 a.m. to 3:00 p.m. the grounds of the Carol Stream Historical House will be turned into a 'MARKET PLACE of TRINKETS AND TREASURES'. Items such as used books, baskets, jewelry, glassware and gently used toys will be for sale at very reasonable prices. An Arts & Crafts Fair will also be a part of the events of the day. Anyone interested in applying for a booth is asked to contact Barbara Tuman at 665-8219.

A limited number of spaces will be available.

Games for children will be held throughout the afternoon.

A hot dog lunch will be served for a nominal fee.

The Carol Stream Historical House is located at 301 Lies Road (just west of Hampe Park). For additional information, contact Barbara O'Rahilly at 665-0686.

Senior & Disabled Taxi Program Changes

The Village is a member of the Pilot II Cab program that offers Carol Stream seniors (65 years+) and mobility challenged (disabled) residents discounted taxi rides. Those who have already registered and have been issued a photo identification card do not need to reregister for the program. Pilot II program coupons have a \$5.00 value and can be purchased from the Village Receptionist for \$2.00 each. Under the new Village program, registered clients are limited to using 20 coupons a month. Please be aware that clients who fail to cancel a reserved ride may be charged a \$10 “no show” fee. A list of the contractual cab companies providing program service is listed below with their current rates.

<i>Taxi Company:</i>	<i>Flag Pull:</i>	<i>Meter Fare:</i>	<i>Hours of Service:</i>
Auto Ride Cab - Villa Park	\$ 1.60	\$ 2.00 / mile	24 Hours/day/365 Days/year
Universal Taxi – South Elgin	\$ 2.00	\$ 1.70 /mile	24 Hours/day/365 Days/year
Fiesta Transport – Aurora	\$ 1.80	\$ 1.80 / mile	Tue-Thu: 7 a.m. – 9 p.m. Mon, Fri. & Sat.: 7 a.m. – 6 p.m.
Lake View Taxi – Wheaton	\$ 2.00	\$ 1.80 / mile	24 Hours/day/365 Days/year
AAA USA Taxi Inc. – Roselle	\$ 1.10	\$ 1.80/mile	24 Hours/day/365 Days/year
American Taxi -Elk Grove Village	\$ 2.50	\$ 1.65 / mile	24 Hours/day/365 Days/year
ALEF Cab Co.- Schaumburg	\$ 2.00	\$ 1.80 / mile	24 Hours/day/365 Days/year

To register for the Village’s Pilot II Paratransit Taxi program, visit the Village Hall on Monday between 7 am and 7 pm and Tuesday through Friday between 7 a.m. and 5 p.m. For more information on the taxi program, phone the Village Receptionist at (630) 665-7050.

Pharmaceutical Assistance Programs

The State of Illinois offers the following 3 programs to assist seniors paying for prescription medicines:

Illinois RX Buying Club – must be at least 65 years old and have a disability. Membership application fee is \$25 and if approved, seniors are entitled to 12 months of savings on all categories of prescriptions drugs ordered by your physician.

Circuit Breaker Pharmaceutical Assistance – provides prescription drug coverage for specific diseases such as alzheimer’s, arthritis, cancer, diabetes, glaucoma, heart and lung conditions just to name a few. Must be at least 65 years old or, if a widow 63 or 64 and meet income criteria.

Illinois SeniorCare Program – covers the most prescription drugs and some over-the-counter drugs prescribed by your physician. Persons must be at least 65 years old and meet income criteria and have private insurance that pays for prescriptions. If approved, you will get prescriptions drug coverage or a monthly rebate, but not both.

For information on these pharmaceutical assistance programs, **phone the Senior Help Line at (800) 252-8966** (Voice & TYY), by e-mail correspondence at ilsenior@aging.state.il.us or download an application from the State of Illinois web site at www.state.il.us/aging

Sex Offender Registry

State statute requires the Illinois State Police (“ISP”) to establish and maintain a statewide Sex Offender Database, accessible on the Internet, identifying persons who have been convicted of certain sex offenses and/or crimes against children. Those required to register as Sex Offenders are persons who have been charged with one of the following:

- (a) A conviction for the commission of the offense or attempt to commit the offense; or**
- (b) A finding of not guilty by reason of insanity of committing the offense or attempting to commit the offense, or;**
- (c) A finding not resulting in an acquittal at a hearing for the alleged commission or attempted commission of the offense.**

The Sex Offender Registry was created to make to publicly available information about persons convicted of sex offenses. The Village’s Police Department has a list of registered sex offenders within our community that is regularly updated and periodic checks are performed to ensure that offenders are complying with the law. A poster inside the lobby of the Village’s Police Department lists the names, addresses and photographs of offenders living in our community. For more information, visit the Illinois Sex Offender Registry at www.isp.state.il.us If you have any information about a non-compliant sex offender, please contact the police department at 668-2167.

Welcome New Businesses

The Village welcomes its new businesses and thanks them for choosing Carol Stream as their home base of operation. The Village and the local Chamber hope your business thrives in our community through hard work, innovation and community involvement. The Village encourages all its residents to keep sales tax dollars in the Village by shopping at these and our other local business establishments.

Business Spotlight on Prince Castle Worldwide, Inc.

In this issue, we salute **Prince Castle Worldwide Inc.**, a leading manufacturer of equipment for quick-service restaurants, specializing in custom solutions to the most recognizable names in food service around the world. Founded in 1956 to serve the fast-food industry, Prince Castle has successfully built one of the most recognizable food service manufacturing operations in the world today. From slicers to timers, to toasters and grill tools, Prince Castle offers 8 different product lines and over 500 different models that provide the food service industry flexibility to create an ideal system of efficiency, productivity and growth.

For over 40 years, quick shipments, on-time delivery and compet-

itive pricing are mainstays in Prince Castle's long history supplying the food service industry. With over 140 years of combined experience, the Prince Castle's service team has extensive product knowledge as well as the specific needs of the customers who rely on them. Featuring a 24-hour hotline and factory-trained technicians, Prince Castle offers an industry trend-setting extended warranty on its products. Prince Castle is proud that many of its products are manufactured in America, right here at their Carol Stream manufacturing facility located at 355 Kehoe Blvd./893 Carol Ct. For more information on Prince Castle Worldwide Inc., visit their website at www.princecastle.com

Local Job Board *as of May 10th*

The jobs listed below are provided as a service to the residents and businesses in the Village. Please contact the business directly to inquire about a listed job(s).

Job	Business	Contact	Address	Phone/Fax	Wage	Posted
Sept-Dec (Seasonal) Order Fulfillers	Partylite Gifts, Inc.	Janice M.	882 Carol Court	480-3256	\$9.00/hr	6/9/04

Warehouse Supervisor	Target Marketing Sys.	Richard Koh	146 Alexandra Way	784-1188	DOQ	5/10/04

The jobs listed above are provided as a service to the residents and businesses in the Village. Please contact the business directly to inquire about a listed job(s). If you would like to post a job opening for a registered Carol Stream business, please complete the form below. Job(s) will be posted on the Village's web page and Channel #15 on the 1st and 15th of each month as well as in the next issue of the **Carol Stream Correspondent** newsletter.

Job Posting Form

<u>Job Title</u>	<u>Business Name</u>	<u>Hiring Contact</u>	<u>Address</u>	<u>Phone</u>	<u>Wage</u>
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____

The attached form can be copied and used for posting an employment opening(s) with the Village. For questions concerning the job posting service, phone Caryl Maurer, Employee Relations Director at 871-6240 or via email at employeerelations@carolstream.org.

Local Grant Application Deadline is Friday, October 29th

The Village administers a Community Activity Fund grant program whose purpose it is to support the efforts of local civic organizations and social service agencies in addressing the needs of "at risk" Carol Stream residents. Eligible organizations that have a primary mission to provide services that address unmet human and social needs, are a registered nonprofit organization are **encouraged to submit a formal grant application for funding consideration by Friday, October 29th**. The maximum grant request is \$1,000 and funded organizations must then submit a detailed financial expenditure report to the Village Manager specifically detailing the expenditure of funds.

Interested local organizations may pick up a Community Activity Fund grant application from the Village Manager's Office at the Village Hall during regular business hours or submit an email request to coakley@carolstream.org

Shop Locally to Support the Christmas Sharing Program

Both **Jewel** and **Dominick's Finer Foods** are teaming up to assist the Police Department Social Services Unit in raising funds for the 2002 Christmas Sharing program. This annual program is an all volunteer grassroots effort of local residents, civic organizations and businesses who give their time, talent and donations of food, clothing, new or gently used children's toys and financial support! The more people who use the coupons when grocery shopping at Jewel and Dominick's Finer Foods on the designated days listed below, the larger the proceeds the sponsor will be able to donate toward the program.

The Village asks residents to use the coupons and to also encourage their friends, neighbors and fellow members of their community and civic groups to use the coupons when shopping during the dates listed above. These local grocery stores will donate **5% of the total purchases**, excluding tax, to this year's Christmas Sharing program. Your help and support is needed to help bring light and hope to local families in need during the holidays. For more information on the program or if you need Christmas Sharing grocery coupons, contact the Police Department's Social Service Unit at (630) 871-6280.
