

# CAROL • STREAM CORRESPONDENT

VOLUME 29 #2 • SPRING 2005

Dear Residents,

Spring is finally here and the staff is putting the final touches on summer Town Center events. New to this year's festival is teen entertainment each night from the gazebo stage. New this year to the summer concert series is a children's day sponsored by Rainbow Academy that is scheduled for Saturday, July 16<sup>th</sup> from 10:30 am until 1 pm featuring music, giveaways, food and amusement rides.

Way back on January 3<sup>rd</sup>, members of **Boy Scout Troop #98** presented the colors at the board meeting. I am grateful to these young men for both their community service and patriotism. During that same meeting, I had the privilege of meeting **Rodrigo Bueno Therezo**, a Rotary Youth Exchange student from Sao Paulo, Brazil who is attending school at Glenbard North H.S. and living with host families in our community. Accompanying Rodrigo were two other fellow Glenbard North H.S. students **Juan Perez** and **Alex Gems** who are Carol Stream residents. Both Rotary Youth Exchange students as well, Juan is getting ready to live and study in Germany this fall while Alex will be doing the same in Brazil.

On February 22<sup>nd</sup>, the Illinois Police Chiefs Association presented the Police Department with the **2004 Community Policing Award of Excellence**. It was 12 years ago when the Village's Police Department first began to implement community policing and the resulting benefits to the community have been significant. The most notable accomplishments include the development of community-wide partnerships between the Police Department, the criminal justice system, property managers, neighborhood watch groups, community organizers, religious leaders, the business community and the local citizenry. I am very proud of this very successful public safety partnership between our Department Officers and the community-at -large to ensure Carol Stream remains a great place to live, work and raise a family.

Residents planning home improvement projects are reminded to work closely with our Community Development Department to get the required permit(s) before beginning work. Permitted projects are subject to a valuable code inspection service that may detect poor workmanship and possible code violations that could, if not caught and addressed, reduce the value of the improvement.

Each spring brings windy weather and many reports of blowing trash. Please be reminded to do your part in securing your refuse in a can with a lid on your collection day so litter doesn't end up in the street, in parks, ponds, streams or on your neighbor's property. Help keep Carol Stream clean and beautiful all year long.

In closing, have a wonderful spring and I look forward to seeing all of you at the upcoming 4-day "Summer in the Center" festival that begins Thursday evening, June 16<sup>th</sup> and at the 4<sup>th</sup> of July Parade and evening music concert and fireworks extravaganza at the Town Center, scheduled for Monday, July 4<sup>th</sup>.

Sincerely,

Ross Ferraro  
Mayor

**Don't Forget to  
change your  
clocks on  
April 3<sup>rd</sup>!**

## Outdoor Severe Weather Sirens

When outdoors during forecasted severe weather, it is important to keep your ear and eye to the sky. The Village has 6 outdoor warning sirens at strategic locations to alert those outdoors to immediately seek shelter indoors. **Severe weather sirens are not designed to be heard by those indoors**, as TV and radio are their source for emergency information. A severe weather siren will be activated when:

1. a tornado has been sighted within 5 miles of the Village limits by a trained weather spotter; or
2. a trained weather spotter observes firsthand severe winds causing structural damage to a home or building; or
3. a warning has been issued by the National Weather Service (NWS) that the community is in the direct path of an oncoming tornado.

Once activated, sirens are not resounded for the same storm cell or tornado sighting. A warning siren is resounded for a new confirmed sighting or a different storm cell that meets activation criteria. **Outdoor warning sirens are never sounded to signal an 'all clear' advisory. Residents should monitor radio and TV for the issuance by the NWS of an 'all clear' advisory. A siren sounded after a local activation should never be interpreted as an 'all clear' as it may be a siren activation from a neighboring community.**

## Hydrant Flushing: April 4<sup>th</sup> - 15<sup>th</sup>

The springtime flushing of fire hydrants is a standard water utility practice that removes mineral oxide build up that settle at the bottoms of water mains. To minimize inconvenience to residents, crews will flush from 7 pm until midnight when water demand is typically the lowest. Crews will post signs in the service area where they are working to notify residents that flushing will occur that evening. Water customers:

**may experience a temporary drop in water pressure & discolored water;**

**are asked to run their tap in the morning** to clear up any discoloration;

**are advised not to do laundry during evening hours** to prevent possible rust staining.

For questions about hydrant flushing phone the Public Works Department at 871-6260.

## Watering Restrictions

Automatic sprinkler systems and continuous watering devices **are the only uses subject to outdoor watering restrictions.** Watering with a hand held device that has an automatic shut off nozzle is not regulated.

**Odd-Even Day Restrictions:** Homes with even numbered addresses (172 Thunderbird Tr.) can water on an even numbered dates (May 2<sup>nd</sup>), while homes with odd numbered addresses (283 Idaho Tr.) can water on odd numbered dates (June 17<sup>th</sup>). **Odd-even day restrictions are in effect all year round!**

Residents may water new lawns and landscaping from sun up through midnight for 14 consecutive days from the date of planting. To avoid ticketing, residents must register their property address by phoning (630) 871-6220 by 4:30 p.m. (Mon.-Thu.) for weekday projects and by 12:30 p.m. on Friday for weekend projects.

## Battery Recycling Locations

Disposable nickel cadmium (Ni-Cd), nickel metal hydride (Ni-MH), lithium ion (Li-ion) and Small Sealed lead\* (Pb) batteries commonly found in cordless power tools, cellular and cordless phones, etc. are accepted at the following locations for recycling:

**Army Trail Tire & Service**

## Mosquito Control & West Nile Virus Infection Protection

To prevent your property from being a drought mosquito-breeding site, follow the precautions below:

- Get rid of old tires, tin cans, buckets, bottles** and all other water holding containers.
  - Drain or fill-in any low places** (ruts and puddles) in your yard.
  - Keep drains, ditches and culverts clear of trash and weeds** so water drains properly.
  - Keep lids on your trash containers** to keep out rainwater.
  - Repair leaky pipes and outside faucets.**
  - Empty wading pools each week** and store them indoors when not in use.
  - Make sure your swimming pool** is working properly and cared for while on vacation.
  - Fill in hollowed out tree stumps** with sand or concrete.
  - Change the water in** birdbaths, plant pots, and drip trays at least once a week.
  - Cut your grass short** and trim your shrubbery to eliminate hiding places for mosquitoes.
  - Store boats** covered or upside down and remove rainwater weekly.
  - Repair window screens.**
- Make sure **ornamental ponds** are stocked with fish who will eat mosquito larvae.

**The key in helping to control for the WNV is reducing breeding sites and larviciding (egg destruction) and not adult spraying as is commonly thought.** Spraying (fogging) only kills those mosquitoes that come in contact with insecticide droplets and adult mosquitoes commonly return to a breeding area shortly after the spray agent has dissipated. Residents living in Bloomingdale and Wayne township portions are asked to report areas of excessive mosquito infestation and areas of standing water to Clarke's "**Mosquito Hotline**" at **1-800-942-2555**. **Find out how you can help reduce the development of WNV by visiting :**

## Mind Your Curbside Manners

Observe the following guidelines to reduce the incidence of blowing refuse and help keep the community clean all year long:

- Place Refuse in a Can w/ a Lid
- Flatten Glass, Plastic, Aluminum & Tin
- Bag & Tie All Paper & Newsprint
- Cut Up & Bundle Cardboard
- Clean Up After Your Dog
- Use an Automobile Litter Bag
- When in a Park, Put Litter in a Refuse Can or Bring it Back Home
- Report All Instances of Littering by calling (630) 871-6230.

## Yard Waste Sticker Locations

Flood Brother's has resumed yard waste collection service. Yard waste stickers can be purchased for \$1.50 at the following 6 area outlets:

- Municipal Center/Police Records** – Gary Ave. & Hiawatha Dr.
- Jewel Foods** - County Farm & Army Tr. Rds.
- Family Foods** - County Farm & Army Tr. Rds.
- Carol Stream Food Mart** - Elk & Idaho Trs.
- Dominick's**- Geneva & Schmale Rds.
- Convenient Food Mart** - Kuhn Rd. & Munson Dr.

For more information on yard waste service, phone Flood Brothers Disposal & Recycling Systems at 261-0578.

## Projects Requiring a Building Permit

Permit applications and handouts are available 24 hours a day in the Village Hall lobby or can be downloaded from the Village web site @ [www.carolstream.org/ReferenceDesk/Forms/Forms.htm#Beginning](http://www.carolstream.org/ReferenceDesk/Forms/Forms.htm#Beginning).

Work done prior to securing a permit is subject to increased fees and fines. Decide early on whether you or your contractor will apply and obtain the necessary building permit(s). **Once a building permit has been secured, you are required to clearly post the permit either in the front window or door of the building structure.** Common projects that require a building permit include:

<b>A/C Units</b>	<b>Above Ground Pools</b>	<b>Basements (Finished)</b>	<b>Below Ground Pools</b>	<b>Decks</b>
<b>Driveways</b>	<b>Electrical Work</b>	<b>Fences</b>	<b>Fireplaces</b>	<b>Furnaces</b>
<b>Gazebos</b>	<b>Garages</b>	<b>Lawn Sprinkling Systems</b>	<b>Patios</b>	<b>Porches</b>
<b>Room Additions</b>	<b>Satellite Dishes(&gt;3ft.)</b>	<b>Sheds</b>	<b>Water Heaters</b>	

If you are not sure whether your project requires a permit, or have questions about building codes, permit fees or the building permit process, please call the Community Development Department at 871-6230 before starting work.

## Business Profile: Prince Industries Inc. – 745 N. Gary Ave.

In this issue, we spotlight **Prince Industries Inc.**, the premier manufacturer of precision-machined, sheet metal-fabricated components. This family-owned, global contract manufacturer humbly began in 1959 as a one-man operation and 45 years later retains a skilled workforce of approximately 200 employees. This industry's high-trained work force draws upon years of experience to perform hydraulic valve machining and Swiss machining with tolerances in the millionths of an inch for a diverse multinational customer base that includes such industry giants as Caterpillar and Life-Fitness.

Over the past 5 years, significant changes in the manufacturing sector have forced U.S. companies to seek overseas suppliers to lower their product costs. Prince Industries' leadership team and workforce has courageously embraced the challenges of today's rapidly changing manufacturing marketplace by formulating a successful global manufacturing strategy that included the opening of a small plant in Shanghai, China. Another factor in the company's success is their principled investment in training and technology that has allowed them to embrace new and innovative manufacturing technologies and techniques to maximize productivity and product quality.

The company's strategic efforts have been successful and earned them recognition and acclaim within the American business community for their innovation and visionary-thinking. As a result, Prince Industries Inc. now offers the benefits of global market prices as well as the prompt and value-added service they can provide at their Carol Stream facility. A 20% percent increase in sales during both 2003 and 2004 is further evidence of the company's savvy ability to adapt to rapidly changing technologies and the ever-changing global marketplace.

Carol Stream is extremely proud to be the home of Prince Industries Inc. and we extend our wishes for continued business success for many years to come. For more information on this company, visit the company's website at [www.princeind.com](http://www.princeind.com)
