

Flood Bros Disposal Co. Announces Service Day Change in Carol Stream Service in a portion of Carol Stream starting August 5th

Approximately 820 homes north of Lies Rd. will change from Thursday trash, recycling and yard waste service Wednesday starting on Wednesday, August 5, 2015.

Residents in the affected will be notified through door hangers at their homes and a notice sent in the mail.

Some of our routes have experienced changes in volume in recent months and years, while others have remained the same so we are taking the opportunity now to balance them out. The change was necessitated by variables which has resulted in some trash and recycling routes being disproportionately larger and heavier than others.

Customers on the following streets will move from Thursday service to Wednesday service. The last day of trash, recycling and yard waste service on the previous schedule will be July 30, 2015; the new service schedule will begin August 5, 2015.
