Certificate of Achievement for Excellence in Financial Reporting

Presented to

Village of Carol Stream, Illinois

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
April 30, 2002

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

October 1, 2003

The Honorable Mayor Ferraro Members of the Village Board Citizens of the Village of Carol Stream

The Comprehensive Annual Financial Report of the Village of Carol Stream (Village) for the year ended April 30, 2003, is hereby submitted as mandated by both local ordinances and state statutes. These ordinances and statutes require that the Village issue annually a report on its financial position and activity presented in conformance with accounting principles generally accepted in the United States of America (GAAP) and audited in accordance with generally accepted auditing standards by an independent firm of certified public accountants.

This report consists of management's representations concerning the finances of the Village of Carol Stream. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide as reasonable basis for making these representations, management of the Village has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft or misuse and to compile sufficient reliable information for the preparation of the Village of Carol Stream's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the Village's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. The Village has implemented GASB Statement No. 34, Basic Financial Statements - and Management Discussion and Analysis – for state and local governments, including infrastructure reporting. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The Village's financial statements have been audited by Sikich Gardner and Company LLP, a firm of licensed certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the Village of Carol Stream for the fiscal year ended April 30, 2003, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon audit, that there was a reasonable basis for rendering an unqualified opinion that the Village's financial statements for the fiscal year ended April 30, 2003, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The Village's MD&A can be found immediately following the report of the independent auditors.

Profile of the Village of Carol Stream

The Village of Carol Stream, a home rule community as defined by the Illinois Constitution, was incorporated in 1959 and is located approximately 35 miles west of the City of Chicago in DuPage County. The Village currently has a land

Getting On-Line, Instead of In-Line www.carolstream.org

area of 10.0 square miles and a population of 40,438. The Village also has the power by state statute to extend its corporate limits by annexation, which is done periodically when deemed appropriate by the Village Board. As in past years, the Village continued its long-standing practice of not levying a property tax (property tax received pertains to the Village's share of local road and bridge funds from townships' government levies, only).

The Village operates under the Board/Administrator form of government. Policy making and legislative authority are vested in the Village Board, which consists of a Mayor and a six-member Board of Trustees. The Village Board is responsible, among other things, for passing ordinances, adopting the budget, appointing committees and hiring the Village's manager and attorney. The Village's manager is responsible for carrying out the policies and ordinances of the Village Board, for overseeing the day-to-day operations of the Village, and for appointing the heads of the Village's departments. The Board is elected on a non-partisan basis. Board members are elected to four-year staggered terms with three Board members elected every two years. The Mayor is elected to a four-year term. The Mayor and Village Trustees are elected at large.

The Village provides a full range of services, including police protection, the construction and maintenance of streets and other infrastructure and the operating of the water and wastewater facilities.

The annual budget serves as the foundation for the Village's financial planning and control. All departments of the Village are required to submit their budget requests to the Village Manager on or before January 31st of each year. The Village Manager uses these requests as the starting point for developing a proposed budget. The Village Manager then presents this proposed budget to the Village Board on or before February 28th of each year. The Village Board is required to hold a public hearing on the proposed budget and to adopt a final budget no later than April 30th of each year; the close of the Village's previous fiscal year. The appropriated budget is prepared by fund and department (e.g. police). The Village Manager may make transfers of appropriations within a department. Budget transfers between departments require approval of the Village Board. Budget-to-actual comparisons are provided for each individual governmental fund for which an appropriated annual budget has been adopted. For the General Corporate Fund, this comparison is presented beginning on page 52 as required supplementary information. For governmental funds, other than the general corporate fund, with appropriated annual budgets, this comparison is presented in the non-major governmental fund subsection of this report, which starts on page 78.

Major Initiatives

The Village staff, following specific directives of the Village Board and the Village Manager, has been involved in a variety of projects throughout the year; projects which reflect the Village's commitment to ensuring that its citizens are able to live and work in an enviable environment. The most significant of these projects are discussed more thoroughly below:

- The contract was awarded and construction began in the fall of 2002 on the \$7.6 million expansion of the Water Reclamation Center. Construction is approximately 80% complete.
- Completed the fifth and final year of a five-year program to improve stormwater retention ponds and shorelines.
- As part of the Village's "E-gov" initiative, the acceptance of payment of water bills via the internet was implemented in September, 2002 along with the redesigning of the Village's web page.
- The Carol Stream Police Department offered its first Citizen Policy Academy of which 15 citizens participated and graduated.
- The construction of Fountain View Road and other major enhancements to the Village's Town Center was completed.
- A contract in the amount of \$1.3 million was awarded for the major remodeling of the Village's 23 year-old municipal center.

The Carol Stream Police Department made 301 DUI arrests in 2002. Two of our officers received the Illinois Department of Transportation's Lifesaver Award for making over 25 DUI arrests each.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the Village operates.

Local economy. The Village has experienced a slow down in the local economy similar to what has been the experience in the State and the Country. The region has a varied light manufacturing and industrial base, which adds to the relative stability of the unemployment rate in relation to the state and national unemployment rate. Major industries with headquarters or divisions located within the Village's boundaries include several printing companies, metal fabrication companies, container companies, warehousing and distribution facilities and the U. S. Postal Service (regional facility).

State shared sales tax revenue is the Village's number one revenue source. Knowing this, the Village is very vigilant in protecting and promoting its sales tax base. This past year, working in conjunction with the Illinois Municipal League, the Village had a bill introduced (Senate Bill 843) which would eliminate the possibility of a retailer to relocate their point of sale for sales tax purposes without physically relocating their facility to that same town. The bill is expected to come back up during the fall "veto" session. The Village is also very diligent in maintaining and opposing any legislation that would reduce the sharing formula. The Village has a business retention program in place and an annual appreciation luncheon is held. The Village has offered incentives in the form of sales tax rebates and tax increment financing districts to assist in attracting new businesses and just recently was able to attract a Lowe's and Home Depot store to Carol Stream.

Long-term financial planning. The expansion of the Water Reclamation Center continues to be a main emphasis for the Village Board. Phase III, the expansion of the secondary treatment process should be completed in January 2004 at a projected cost of \$7.0 million. The Village is financing this project with a loan through the Illinois EPA revolving loan program. The Village also received a Federal grant in the amount of \$872,000 through the help of our local representatives.

Over the next three years the Village will continue its aggressive street maintenance program. During that time, it is anticipated that the Village will spend approximately \$5.54 million maintaining its roads to keep them at the "very good" rating. One of the projects that is included in this three year period is a complete rebuild of Fair Oaks Road at an estimated cost of \$1.77 million.

Cash Management policies and practices. Cash temporarily idle during the year was invested in Federal Home Loan and Fannie May discount notes, the Illinois Metropolitan Investment Fund (IMET) and the Illinois State Treasurer's pool (Illinois Funds). The maturities of the investments range from being immediately accessible (Illinois Funds) to 2 to 3 years (IMET). The average maturity for the discount notes is 180 days. The average yield on investments was 2.49% for the Village and an average yield of 3.03% for the Police Pension Fund. Usually, the pension fund's rate of return is higher, but this year's return was lower due to a down equity market. Investment income includes appreciation in the fair value of investments. Increases in fair value during the current year, however, do not necessarily represent trends that will continue, nor is it always possible to realize such amounts, especially in the case of temporary changes in the fair value of investments that the Village intends to hold to maturity.

Risk management. The Village continues to participate in two public entity risk pools to protect against casualty and health risk losses. The Intergovernmental Personnel Benefit Cooperative (IPBC) insures health, accident and life claims and the Intergovernmental Risk Management Agency (IRMA) insures first party property losses, third party liability claims, worker's compensation claims and Public Official Liability claims. In addition, various control techniques, including employee accident prevention training, have been implemented during the year to minimize accident-related losses.

Pension and other postemployment benefits. The Village sponsors a single-employer defined benefit pension plan for its police officers. Each year, an independent actuary engaged by the Village and the pension plan calculates the amount of the annual contribution that the Village must make to the pension plan to ensure that the plan will be able to fully meet its obligations to retired employees on a timely basis. As a matter of policy, the Village fully funds each year's annual required contribution to the pension plan as determined by the actuary. As a result of the Village's conservative funding policy, the Village has succeeded as of April 30, 2002, in funding 91.3% of the actuarial accrued liabilities. At this time, the actuarial review for FY2003 is being performed. The remaining unfunded amount is being systematically funded over 32 years as part of the annual required contribution calculated by the actuary.

The Village also provides pension benefits for its non-public safety employees. These benefits are provided through a state-wide plan managed by the Illinois Municipal Retirement Plan (IMRF). The Village has no obligation in connection with employee benefits offered through this plan beyond it's contractual payments to IMRF.

Additional information on the Village's pension arrangements can be found in Note #10 in the financial statements.

Awards and acknowledgments. The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Village for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended April 30, 2002. This was the sixteenth consecutive year that the Village has received this prestigious award. In order to be awarded a Certificate of Achievement, the Village published an easily readable and efficiently organized CAFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

In addition, the Village also received the GFOA's Award for Distinguished Budget Presentation for its annual budget document dated April 7, 2003. This was the fifteenth year the Village has received this award. In order to qualify for the Distinguished Budget Presentation Award, the Village's budget document was judged to be proficient in several categories, including as a policy document, a financial plan, an operations guide, and a communication device.

The preparation of this report could not have been accomplished without the efficient and dedicated services of the entire staff of the Finance Department. We would like to express our appreciation especially to Dawn Damolaris, Assistant Finance Director and Barbara Wydra, Accountant, and all other members of the department who assisted and contributed to the preparation of this report. Credit also must be given to the Mayor and Board of Trustees for their unfailing support for maintaining the highest standards of professionalism in the management of the Village of Carol Stream's Finances.

Respectfully submitted,

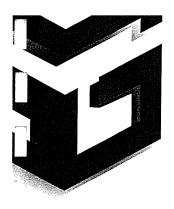

Han W. Helperson

INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor Members of the Board of Trustees Village of Carol Stream, Illinois

We have audited the accompanying basic financial statements and the combining and individual fund financial statements of the Village of Carol Stream, Illinois, as of and for the year ended April 30, 2003, as listed in the accompanying table of contents. These financial statements are the responsibility of the Village of Carol Stream, Illinois' management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the Village of Carol Stream, Illinois, as of April 30, 2003, and the results of its operations and cash flows of its proprietary fund types for the year then ended, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the combining and individual fund statements referred to above present fairly, in all material respects, the financial position of each of the individual funds of the Village of Carol Stream, Illinois, as of April 30, 2003, and the results of operations of such funds and cash flows of individual proprietary funds for the year then ended.

In accordance with Government Auditing Standards, we have also issued a report dated July 24, 2003 on our consideration of the Village of Carol Stream, Illinois' internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole and on the combining and individual fund financial statements. The accompanying financial information listed as schedules and supplemental data in the accompanying table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements of the Village of Carol Stream, Illinois. Such information has been subjected to the auditing procedures applied in the audit of the basic, combining and individual fund financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements and each of the combining and individual fund statements taken as a whole.

The Management's Discussion and Analysis and the other required supplementary information listed in the table of contents is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

The introductory and statistical information listed in the table of contents was not audited by us and, accordingly, we do not express an opinion thereon.

Schuch Gardner & Co Llf

Aurora, Illinois July 24, 2003

MANAGEMENT'S DISCUSSION AND ANALYSIS

April 30, 2003

The Village of Carol Stream (the "Village") discussion and analysis is designed to (1) assist the reader in focusing on significant financial issues, (2) provide an overview of the Village's financial activity, (3) identify changes in the Village's financial position (its ability to address the next and subsequent year challenges), (4) identify any material deviations from the financial plan (the approved budget), and (5) identify individual fund issues or concerns.

Since the Management's Discussion and Analysis (MD&A) is designed to focus on the current year's activities, resulting changes and currently known facts, please read it in conjunction with the Transmittal Letter (beginning on page IV) and the Village's financial statements (beginning on page 14).

Financial Highlights

- The Village's net assets increased by \$.6 million (or .4%) during the fiscal year ending April 30, 2003 (FY03). The governmental net assets decreased by \$.4 million (or .5% from FY02) and the business-type activities net assets increased by \$1.0 million (or 1.9% from FY02).
- The Village's total change of net assets compared to FY02 decreased by \$.3 million with the general
 governmental activities change in net assets decreased by \$1.4 million and the business-type activities
 change in net assets increased by \$1.1 million.
- The governmental activities revenue remained the same at \$18.6 million. The expenses increased by \$.4 million (or 2.1%). The contributions decreased by \$1.0 million.
- The business-type activities revenue increased by \$1.4 million or 19.2%. The expenses decreased by \$.1 million or 1.3%. The contributions decreased by \$.4 million.
- The total cost of all Village programs increased by \$.3 million or .9%.

USING THE FINANCIAL SECTION OF THIS COMPREHENSIVE ANNUAL REPORT

The financial statement's focus is on both the Village as a whole (government-wide) and on the major individual funds. Both perspectives (government-wide and major fund) allow the user to address relevant questions, broaden a basis for comparison (year to year or government to government) and enhance the Village's accountability.

Government-Wide Financial Statements

The government-wide financial statements (see pages 14-16) are designed to be corporate-like in that all governmental and business-type activities are consolidated into columns which add to a total for the Primary Government. The focus of the Statement of Net Assets (the "Unrestricted Net Assets") is designed to be similar to bottom line results for the Village and its governmental and business-type activities. This statement combines and consolidates governmental fund's current financial resources (short-term spendable resources) with capital assets and long term obligations using the accrual basis of accounting and economic resources measurement focus.

The Statement of Activities (see pages 15-16) is focused on both the gross and net cost of various activities (including governmental and business-type), which are supported by the government's general taxes and other resources. This is intended to summarize and simplify the user's analysis of the cost of various governmental services and/or subsidy to various business-type activities.

VILLAGE OF CAROL STREAM, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

The Governmental Activities reflect the Village's basic services, including police, public works, engineering and administration. Shared state sales, local utility and shared state income taxes finance the majority of these services. The Business-type Activities reflect private sector type operations (Water and Wastewater), where the fee for service typically covers all or most of the cost of operation, including depreciation.

Fund Financial Statements

Traditional users of governmental financial statements will find the Fund Financial Statements presentation more familiar. The focus is on Major Funds, rather than fund types.

The Governmental Major Fund (see pages 17-20) presentation is presented on a sources and uses of liquid resources basis. This is the manner in which the financial plan (the budget) is usually developed. The flow and availability of liquid resources is a clear and appropriate focus of any analysis of a government. Funds are established for various purposes and the Fund Financial Statements allow the demonstration of sources and uses and/or budgeting compliance associated therewith.

The Fund Financial Statements also allow the government to address its Fiduciary Fund (Police Pension, see pages 26-27). While this Fund represents trust responsibilities of the government, these assets are restricted in purpose and do not represent discretionary assets of the government. Therefore, these assets are not presented as part of the Government-Wide Financial Statements.

While the Business-type Activities column on the Business-type Fund Financial Statements (see pages 21-25) is the same as the Business-type column at the Government-Wide Financial Statement, the Governmental Major Funds Total column requires a reconciliation because of the different measurement focus (current financial resources versus total economic resources) which is reflected on the page following each statement (see pages 18 and 20). The flow of current financial resources will reflect bond proceeds and interfund transfers as other financial sources as well as capital expenditures and bond principal payments as expenditures. The reconciliation will eliminate these transactions and incorporate the capital assets and long-term obligation (bonds and others) into the Governmental Activities column (in the Government-wide statements).

Infrastructure Assets

Historically, a government's largest group of assets (infrastructure assets - i.e. roads, bridges, stormsewers, etc.) have not been reported nor depreciated in governmental financial statements. This statement requires that these assets be valued and reported within the Governmental column of the Government-wide Statements. Additionally, the government must elect to either (1) depreciate these assets over their estimated useful life or (2) develop a system of asset management designed to maintain the service delivery potential to near perpetuity. If the government develops the asset management system (the modified approach) which periodically (at least every third year), by category, measures and demonstrates its maintenance of locally established levels of service standards, the government may record its cost of maintenance in lieu of depreciation. The Village has chosen to depreciate assets over their useful life. If a road project is considered maintenance — a recurring cost that does not extend the road's original useful life or expand its capacity — the cost of the project will be expensed. An "overlay" of a road will be considered maintenance whereas a "rebuild" of a road will be capitalized.

GOVERNMENT-WIDE STATEMENT

Statement of Net Assets

The Village's combined net assets increased by \$.6 million from FY02 – increasing from \$165.8 million to \$166.4 million. The analysis following will look at net assets and net expenses of governmental and business-type activities separately. The total net assets for the governmental activities decreased by \$.4 million from \$114.8 to \$114.4 million. Whereas the business-type activities net assets increased by \$1.0 million from \$51.0 to \$52.0 million. Table 1 reflects the condensed Statement of Net Assets compared to FY02. Table 2 will focus on the changes in net assets of the governmental and business-type activities.

Table 1

For more detailed information see the Statement of Net Assets (page 14).

Normal Impacts

There are six basic (normal) transactions that will affect the comparability of the Statement of Net Assets summary presentation.

Net Results of Activities – which will impact (increase/decrease) current assets and unrestricted net assets.

Borrowing for Capital - which will increase current assets and long-term debt.

<u>Spending Borrowed Proceeds on New Capital</u> — which will reduce current assets and increase capital assets. There is a second impact, an increase in invested in capital assets and an increase in related net debt which will not change the invested in capital assets, net of debt.

<u>Spending of Non-borrowed Current Assets on New Capital</u> – which will (a) reduce current assets and increase capital assets and (b) will reduce unrestricted net assets and increase invested in capital assets, net of debt.

<u>Principal Payment on Debt</u> — which will (a) reduce current assets and reduce long-term debt and (b) reduce unrestricted net assets and increase invested in capital assets, net of debt.

Reduction of Capital Assets through Depreciation – which will reduce capital assets and invested in capital assets, net of debt.

Current Year Impacts

The Village's \$.6 million increase of combined net assets (which is the Village's bottom line) was the result of the governmental activities net assets decreasing by \$.4 million and the business-type activities net assets increasing by \$1.0 million. The governmental activities total assets increased by \$1.4 million and the governmental activities total liabilities increased by \$1.7 million. Of the \$1.4 million increase in total assets, \$.7 million was due to the increase in the Other Receivables which include receivables for sales, utility, cable, and income tax. The State of Illinois now collects our Simplified Telecom Tax revenues and then remits them back to the Village three months later. Therefore, the Village recorded an additional two month's worth of the telecom tax and an additional month of Commonwealth Edison for the accrual. In past years, the Village only recorded one month's worth of utility tax receivables. Another factor was the increase of \$.5 million to restricted cash and investments. Restricted cash and investments increased because of the increase in deposits payable of \$.4 million and \$.1 million reserved for debt service. Central Park, a new housing development by Pasquinelli, came into the Village and they are required to contribute various deposits before the construction and is reimbursed after the construction is completed and there is no damage to Village property. The other factor was the increase in capital assets by \$.3 million. The increase in total liabilities of \$1.7 million was partly due to the fact that the amount of contracts payable (amount owed to vendors through contracts) increased by \$1.1 million, from \$.2 to \$1.3 million. The deposits payable as mentioned before increased by \$.4 million. The amount of accounts payable also increased by \$.2 million from FY02. This was due to the result of the IPF (Intermediate Processing Facility) sale and subsequent amount received by the Village. The Village pledged that money to the citizens of Carol Stream to help keep the refuse rates low.

The net assets of business-type activities increased by \$1.0 million, from \$51.0 to \$52.0 million. The total assets of the business-type activities increased by \$4.9 million. The majority of that increase was due to the increase in net capital assets of \$4.1 million for the Water Reclamation Center (WRC) improvements. The other factor was the increase in accounts receivable from \$.9 to \$1.9 million. The Village secured a loan from the IEPA for the WRC improvements. The Village recorded \$1.0 million in accounts receivable for a reimbursement from the IEPA not yet received as of FY03. The total liabilities increased by \$3.9 million from \$7.6 to \$11.5 million. The long term liabilities increased by \$3.1 million as a result of the IEPA loan for the WRC improvements. The other increase was in the amount of contracts payable of \$.7 million again due to the WRC improvements. The unrestricted net assets of \$15.0 remained unchanged from FY02. The Village can use that \$15.0 million to finance the continuing operation of its water and wastewater utility program.

Changes in Net Assets

The Village's combined change in net assets was a decrease of \$.3 million. The Village's total revenues increased by \$1.4 million. The Village's cost of all programs was virtually unchanged (only increasing by \$.3 million). The Village's total contributions decreased by \$1.4 million. The following chart compares the revenue and expenses for the current and previous fiscal year.

VILLAGE OF CAROL STREAM, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

There are eight basic impacts on revenues and expenses as reflected below:

Normal Impacts

Revenues:

Economic Condition – which can reflect a declining, stable or growing economic environment and has a substantial impact on state income, sales and utility tax revenue as well as public spending habits for building permits, elective user fees and volumes of consumption.

Increase/Decrease in Village approved rates — while certain tax rates are set by statute, the Village Board has significant authority to impose and periodically increase/decrease rates (water, wastewater, impact fee, building fees, home rule sales tax, etc.)

Changing Patterns in Intergovernmental and Grant Revenue (both recurring and non-recurring) – certain recurring revenues (state shared revenues, etc.) may experience significant changes periodically while non-recurring (or one-time) grants are less predictable and often distorting in their impact on year to year comparisons.

Market Impacts on Investment income – the Village's investment portfolio is managed using a longer average maturity than most governments and the market condition may cause investment income to fluctuate more than alternative shorter-term options.

Expenses:

Introduction of New Programs — within the functional expense categories (Public Safety, Public Works, General Government, etc.) individual programs may be added or deleted to meet changing community needs.

Increase in Authorized Personnel – changes in service demand may cause the Village Board to increase/decrease authorized staffing. Staffing costs (salary and related benefits) represent 72% of the Village's operating cost.

Salary Increases (annual adjustments and merit) – the ability to attract and retain human and intellectual resources requires the Village to strive to approach a competitive salary range position in the marketplace.

Inflation – while overall inflation appears to be reasonably modest, the Village is a major consumer of certain commodities such as supplies, fuels and parts. Some functions may experience unusual commodity specific increases.

Current Year Impacts

Governmental Activities

Revenue:

The total revenues remained unchanged at \$18.6 million.

The governmental activities other taxes (which includes sales tax, local utility tax and state shared income tax) under general revenue decreased by \$.1 million. As a result of a declining economy, state shared sales tax revenues (the Village's largest revenue source) decreased by \$.1 million from \$5.9 million to \$5.8 million. Utility Tax revenue increased \$.3 million from FY02 (\$3.8 million to \$4.1 million). State shared income tax revenues totaled \$2.8 million for FY02 compared to \$2.6 million for FY03 which is a decrease of \$.2 million.

VILLAGE OF CAROL STREAM, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

The sales tax revenue, local utility tax and shared state income tax revenues represent 67% of the total Governmental Activities revenue.

The declining condition of the financial market was a major reason that investment income decreased by \$.3 million or 30.3 % from FY02 (\$1.0 million to \$.7 million). The rate of return on investments was 2.49% in FY03 compared to 3.53% in FY02. The Village's strategy for investing did not change.

The Village recorded a small gain in the sale of fixed assets compared to FY02 in which the Village donated land to the Carol Stream Park District and recorded a loss on sale of capital assets of \$.4 million.

In FY03, the Village received only \$.1 million in capital contributions due to accepting only one subdivision into the Village compared to \$1.1 million in capital contributions in FY02 which were due to the acceptance of two subdivisions and the last phase of the original Carol Stream road reconstruction program.

The Village does not levy a property tax and the Village's 2002 equalized assessed valuation increased 9.6% to \$973,726,661.

Expenses:

The Village's Governmental Activities total expenses increased by \$.4 million from \$18.7 to \$19.1 million or 2%.

The Village's General Government function expenditures decreased by \$1.7 million. All of this change was due to the amount of assets capitalized. In FY02, the Village capitalized \$1.0 million of assets whereas in FY03 the Village capitalized \$2.7 million. The construction of the Fountain View road and enhancements at the Town Center was the biggest asset capitalized, being capitalized at \$2.3 million.

The Village's Public Safety function expenditures increased by \$.3 million, from \$7.9 to \$8.2 million. The increase was primarily in the Salaries and Wages line items. There are several factors for the increase, one is that two long time employees left the Village and received their unused vacation and sick leave conversion paid out. Another factor was due to a general wage increase of 4% in salaries.

The Village's Highway & Streets function expenditures increased by \$1.8 million, from \$7.0 to \$8.8 million. All of that increase was due to the expenditures spent on the Fountain View road and construction enhancements at the Town Center. The construction was then capitalized under the General Government function.

Historically, due to lower unemployment levels and a high demand for skilled employees in both the public and private sectors in this region, it is important that the Village provide competitive compensation levels for it's employees. The FY03 expenses included funding for the Village's performance based employee compensation package plus funding a 4.0% general salary adjustment.

The cost of providing employee benefits continued to increase. Health insurance premiums increased by 15.5% for the Village's PPO and 20.1% for it's HMO. Dental premiums increased by 18%. The total cost of insurance increased by \$.3 million which is a 25% increase. The Village pays 80% of the cost of the insurance premiums.

Business-type Activities

Revenue:

The total revenue for the business-type activities increased by \$1.4 million. Part of that increase was in charges for services which increased by \$.6 million, an 8% increase. Of the \$.6 million increase, half of that was due to

VILLAGE OF CAROL STREAM, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

the increase in sewer billings of \$.3 million. There was a sewer rate increase of \$.30/1000 gallons of usage put into effect on May 1, 2002. Another part of the increase was due to the increase of \$.2 million for the expansion connection fees which included several expansions for both new and current tenants and construction for a new housing development (Pasquinelli). Additionally, business-type activities revenue increased by \$1.4 million was due to the fact that the Village received a one time capital grant for \$.9 million from the United States Environmental Protection Agency for the Village's WRC expansion construction.

The investment income decreased by \$.2 million from FY02. The main reason that the investment income declined was due to the decline in interest rates.

Expenses:

The Village's expenses slightly decreased from FY02 with a decrease of \$.1 million which is less then 1.3 %. The only noticeable decrease was expenditures for the DuPage Water Commission which decreased by \$.2 million as a result of lower usage.

FINANCIAL ANALYSIS OF THE VILLAGE'S FUNDS

Governmental Funds

At April 30, 2003, the governmental funds (as presented on the balance sheet on page 17) reported a combined fund balance of \$29.0 million which is a 1.4 % decrease from the beginning of the year (\$29.5 million). Of the total fund balance of \$29.0 million, \$24.4 million is unreserved indicating availability for continuing Village services which is a decrease of \$1.0 million from FY02 (3.8% decrease). The decrease in unreserved fund balance is a result of a net increase in general total assets and general total liabilities. The increase in general total assets was a result of a \$.7 million increase in utility tax receivable accrual. The increase of \$1.7 million in general total liabilities was a result of an increase in accounts payable of \$.3 million, contracts payable of \$1.0 million and deposits payable of \$.4 million. Reserved fund balance of \$4.4 million for the governmental funds includes \$2.5 million committed for maintenance of roadways, \$.7 million committed to service debt and \$.5 million for liquidating encumbrances from the prior year.

Major Governmental Funds

The General Fund is the Village's primary operating fund and the largest source of day-to-day service delivery. The Fund Balance of the General Fund decreased by \$.5 million or 1.8% from FY02 (from \$26.0 million to \$25.5 million). The General Fund revenues decreased by \$.2 million (1.1%) and the expenditures increased by \$ 1.8 million (11.7%). Thereby the excess of revenues over expenditures decreased by \$ 2.0 million from \$1.5 million to (\$.5) million. The other financing sources increased by \$.2 million due to the closing of the Garage Fund into the General Fund. Revenues continued to come in lower then the prior year. The increase in expenditures was due to the construction of the Fountain View road construction and enhancements at the Town Center. The Village continued to watch all other expenditures to control operating costs. In addition, the General Corporate Fund contributed \$3.3 million to pay-as-you-go financing of capital projects in FY02.

General Fund Budgetary Highlights

Over the course of the year, the Village amended the budget two times. It is the Village's policy to identify the construction projects in the budget process but not bring them into the budget until an award has been made by the Village Board. Once the award has been made the budget is amended for that amount. Usually, the budget is amended at least twice for construction projects, once six months into the new fiscal year and then right before the end of the fiscal year. Below is a table which reflects the original and revised budget and the actual for the revenues

VILLAGE OF CAROL STREAM, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

and expenditures for the General Fund. More information can be found on the schedule of revenues, expenditures and changes in fund balance on page 52.

General Fund	Original Budget	FY 2003 (in millions) Amended Budget	Actual
	Zuagot	Dauget	Actual
Revenues			
Taxes	\$ 14.140	\$ 14.140	\$ 13.278
Intergovernmental	.096	.096	.041
Other	2.972	2.990	3.673
Total	\$ 17.208	\$ 17.226	\$ 16.992
Expenditures and Transfers			
Expenditures	\$ 16.280	\$ 20.741	\$ 17.496
Transfers	.200	.200	(.026)
Total	\$ 16.480	\$ 20.941	\$ 17.470
Change in Fund Balance	\$ 0.728	\$(3.715)	\$(0.478)

The General Corporate Fund actual revenues were \$.216 million less than the original budgeted amount. Sales tax revenues were under budget by \$.35 million. Budgeted sales tax revenues, which were developed in December 2001, were projected to be 2% lower than FY01 receipts due to the combination of the ongoing recession and the loss of Webvan. In December 2002, a major sales tax generator changed their point of sale (for sales tax purposes) to another town resulting in an annual decrease in sales tax revenues of \$.55 million. The \$.35 million decrease in state income tax receipts was a direct result of the recession. On the positive side, building related revenues came in \$.15 million over budget, a distribution of surplus in the amount of \$.16 million from NORDCAT, the Village's cable TV consortium was received and miscellaneous revenue came in \$.24 million over budget. As a result of continued monitoring, adjustments were made to the budget to help mediate the decline in revenue. Several positions were "frozen" and some purchases delayed

The General Corporate Fund actual expenditures were \$1.216 million more than the original budgeted amount. It is the Village's policy not to bring the cost of the capital projects into the budget until the contract has been awarded. The \$1.216 represented capital projects that were undertaken during the fiscal year.

As a result of the budget amendments, actual General Corporate Fund expenditures and transfers were less than the amended budget by \$3.245 million. Of the \$3.245 million difference, \$1.3 million was due the budget amendment for the total amount of the construction projects of the Fountain View road and Town Center enhancements and the Village hall remodeling. However, the projects were not completed (actual expenses) in the current fiscal year. The other majority of the difference \$1.7 million consists of various departments (five) with actual expenses considerably under budget as a result of monitoring what was budgeted and what could be deferred.

Capital Assets

At the end of the fiscal Year 2002, the Village had a combined total of capital assets of \$136.73 million invested in a broad range of capital assets including police equipment, buildings, village facilities, roads, bridges, and water and sewer lines. (See Table 3 below). This amount represents a net increase (including additions and deductions) of \$4.43 million.

Table 3

VILLAGE OF CAROL STREAM, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

The retirements in the construction in progress is equally reflected as an addition in Capital Assets.

Governmental Activities	
Streets and storm sewers for Sementa Subdivision and	
Center Ave	\$.08
Historic Farmhouse restoration	\$.05
Various town center and village hall projects	\$.21
Fountain View Road and Town Center enhancements	\$2.26
Various projects/equipment for Highway & Streets	\$.44
Vehicles for Public Safety	\$.14
Vehicles and equipment for General Government	\$.16
Business-type Activities	
Water & Sewer System Sementa Subdivision and Center	
Avenue	\$.10
Land for Water Reclamation Center	\$.21
Water & Sewer various equipment/vehicles	\$.11
Reconstruct St. Charles Water Main	\$.73
Water Reclamation Center improvements	\$4.99

The Governmental Activities net capital assets marginally increased from last year by \$.27 million (.3%). The infrastructure capital assets decreased by \$2.41 million from last year due to the end of the 10-year reconstruction of the original Carol Stream streets. The capital assets in construction-in-process increased by \$1.75 million due to the construction for the Fountain View Road and Town Center enhancements.

For the Business-type Activities, the net capital assets increased by \$4.16 million or by 9.7%. The Village's biggest additions were the beginning construction of the Water Reclamation Center (\$4.97 million) and replacement of the St. Charles water main (\$.73 million).

Debt Outstanding

In 1991, the Village received a \$10.3 million loan from the Illinois Environmental Protection Agency under their revolving loan program. (See Notes #5 to the Financial Statements). As of April 30, 2003, the Village owes \$6.4 million. Since the loan was issued for the acquisition of capital assets for the water and sewer system, it is reported as a business-type activity.

In 2002, the Village received a \$7.6 million loan from the Illinois Environmental Protection Agency under their revolving loan program. Once the reconstruction at the wastewater treatment plant is completed, which should be January 1, 2004, then the Village will start repaying the loan. It is reported as a business-type activity. (For more information, see Note #5 to the Financial Statements)

Tax Increment Financing bonds in the amount of \$4.69 million were issued in 1997 for the Geneva Crossing development. Since the issuance of these bonds did not produce a fixed asset for the Village, the unrestricted net assets have been reduced by the amount of the bonds.

The Village currently does not have any outstanding General Obligation or Revenue bonds.

The Village, under its home rule authority, does not have a legal debt limit. The Village has no immediate plans to issue bonds.

Economic Factors

The Village's share of the state sales and income taxes plus the local utility tax continue to represent the largest portion of General Corporate Fund Revenue. The weakened economy and the loss of a second major retailer in two

VILLAGE OF CAROL STREAM, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

years is reflected in the state shared sales tax and income tax revenues, which represent 49% of the General Corporate Fund revenues. For the most part, the local utility taxes have stabilized due to deregulation. The utility tax revenues reflected an increase of \$.23 million over FY02 primarily as a result of the high cost of natural gas. The utility tax revenues represent 23% of the General Corporate Fund revenues. A relatively stable resale housing and non-residential market leads to consistent revenues from the local real estate transfer tax. Building related fees reflect the estimated construction activity for the last remaining approved residential subdivisions, which is an age-restricted development, and the expected industrial and commercial construction. These truly reflect the built out nature of our corporate limits. The completion of the North Avenue widening has generated an interest in property assemblage and reuse in our southwestern sector outside the corporate limits.

The Village's unemployment rate as of April 30, 2003 is 5.3% which is under the state unemployment rate of 6.1% and national unemployment rate of 5.8%. The Village's unemployment rate decreased by 2.9% from last year however it is still 51% higher than 2000.

The 2003-04 Operating Budget Element Revenues are projected to be \$24.3 million. The projected Operating Element Expenditures, consisting of the General Corporate and Water and Sewer Funds, are \$23.1 million. The 5% utility tax on natural gas was replaced with a \$.025/therm use tax on natural gas and a .5% home-rule sales tax was added. This projected positive cash flow provides the Village the opportunity to refresh fund reserves that are ultimately used to fund capital improvement projects and maintain comfortable operating reserves for the uncertainties of a weak economy. With the exception of an expanded e-Gov effort, no new programs or services are contemplated. As a service provider, the Village's largest single operating cost is personnel related, representing 49% of total operating expenditures. The total proposal 2003-04 full-time personnel complement is 162.75, an increase of .25 compared to 2002-03. The 2003-04 budget also includes 7 "frozen" positions. Pension and group health insurance represent a significant portion of the annual personnel expenditures. The group health insurance costs in 2003-04 are projected to be \$1.3 million compared to \$1.1 million budgeted in 2002-03.

CONTACTING THE VILLAGE'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, customers, investors and creditors with a general overview of the Village's finances and to demonstrate the Village's accountability for the money it receives. Questions concerning this report or requests for additional financial information should be directed to Stan W. Helgerson, Finance Director, Village of Carol Stream, 500 N. Gary Avenue, Carol Stream, IL 60188.

NOTES TO FINANCIAL STATEMENTS

April 30, 2003

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Village of Carol Stream, Illinois (the Village) have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Village's accounting policies are described below.

a. Reporting Entity

The Village is a municipal corporation governed by an elected Mayor and six-member board. As required by generally accepted accounting principles, these financial statements present the Village (the primary government). The Police Pension Fund has been included as a fiduciary fund due to the fiduciary responsibility exercised over the Police Pension Fund.

b. Fund Accounting

The accounts of the Village are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds are maintained consistent with legal and managerial requirements.

Funds are classified into the following categories: governmental, proprietary and fiduciary.

Governmental funds are used to account for all or most of a Village's general activities and includes the collection and disbursement of earmarked monies (special revenue funds). The general fund is used to account for all activities of the general government not accounted for in some other fund.

b. Fund Accounting (Continued)

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the Village (internal service funds). Pursuant to GASB Statement No. 20, Accounting and Financial Reporting for Proprietary Funds, the Village has chosen to apply all GASB pronouncements as well as those pronouncements of the Financial Accounting Standards Board (FASB) issued on or before November 30, 1989 to account for proprietary funds.

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the Village. When these assets are held under the terms of a formal trust agreement a pension fund is used.

c. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the Village. The effect of material interfund activity has been eliminated from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and standard revenues that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

c. Government-Wide and Fund Financial Statements (Continued)

The Village reports the following major governmental funds:

The general fund is the Village's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Village reports the following major proprietary funds:

The water and sewer fund accounts for the activities of the water and sewerage operations. The Village operates the sewerage treatment plant, sewerage pumping stations and collection systems and the water distribution system.

Additionally, the Village reports the following fund types:

Internal service funds account for fleet management services provided to other departments or agencies of the Village on a cost reimbursement basis.

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues and additions are recorded when earned and expenses and deductions are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e., intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Operating revenues/expenses include all revenues/expenses directly related to providing water and sewer services. Incidental revenues/expenses are reported as non-operating.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The Village considers revenues to be available as they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a fund liability is incurred. However, debt service expenditures are recorded only when payment is due.

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Property taxes, sales taxes, franchise taxes, licenses, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual and are recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the Village.

The Village reports deferred revenue on its financial statements. Deferred revenues arise when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Deferred revenues also arise when resources are received by the Village before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the Village has a legal claim to the resources, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized.

e. Cash and Investments

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Village's proprietary fund types consider all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

Investments

Investments are stated at fair value.

f. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other fund" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds".

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

g. Inventories

Inventories are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. The costs of governmental inventories, if any, are recorded as expenditures when consumed rather than when purchased.

h. Prepaid Items/Expenses

Payments made to vendors for services that will benefit periods beyond the date of this report are recorded as prepaid items/expenses.

i. Loan Receivable

The Village recorded a loan receivable to a council of local governments to be repaid to the Village in annual installments each May 1 with interest through 2021.

j. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Village as assets with an initial, individual cost of more than \$20,000 (amounts not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Property, plant and equipment is depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Buildings Infrastructure Water and Sewer System Machinery and Equipment	50 30-50 30-50 3-10
Machinery and Equipment	3-10

k. Intangible Assets - Water Purchase Rights

The Village is a customer of the DuPage Water Commission, and has executed a Water Supply Contract with the Commission for a term ending in 2024. The contract provides that the Village pay its proportionate share of "fixed costs" (debt service and capital costs) to the Commission, such obligation being unconditional and irrevocable whether or not water is ever delivered. These costs were being capitalized until the Commission began to deliver water, and are now being amortized, using the straight-line method over the remaining term of the contract.

1. Compensated Absences

In the fund financial statements, vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. No expenditure is reported for these amounts. Vested or accumulated vacation leave of proprietary funds and in the government-wide financial statements is recorded as an expense and liability of those funds as the benefits accrue to employees.

In accordance with the provisions of GASB Statement No. 16, no liability is recorded for nonvesting accumulating rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulated sick leave benefits that is estimated to be taken as "terminal leave" prior to retirement.

m. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type financial statements. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

n. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change. In the government-wide financial statements, restricted net assets are legally restricted by outside parties for a specific purpose.

o. Comparative Data

Comparative total data for the prior year have been presented in selected sections of the accompanying financial statements in order to provide an understanding of changes in the Village's financial position and operations. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation but had no effect on previously reported activity.

2. DEPOSITS AND INVESTMENTS

The Village maintains a cash and investment pool that is available for use by all funds, except the pension trust fund. Each fund type's portion of this pool is displayed on the combined balance sheet as "cash and investments." In addition, investments are separately held by several of the Village's funds. The deposits and investments of the pension trust fund are held separately from those of other funds. The primary government's cash on hand of \$3,240 has been excluded from the amounts shown below.

Permitted Deposits and Investments - Statutes authorize the Village to make deposits/investments in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreement to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services, and the Illinois Funds. Pension funds may also invest in certain non-U.S. obligations, Illinois municipal corporations tax anticipation warrants, veteran's loans, obligations of the State of Illinois and its political subdivisions, and Illinois insurance company general and separate accounts, mutual funds and equity securities.

Illinois Funds is an investment pool managed by the State of Illinois, Office of the Treasurer, which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in Illinois Funds are valued at Illinois Fund's share price, the price for which the investment could be sold.

2. DEPOSITS AND INVESTMENTS (Continued)

Illinois Metropolitan Investment Fund (IMET) is a non-for-profit investment trust formed pursuant to the Illinois Municipal Code and managed by a Board of Trustees elected from the participating members. IMET is not registered with the SEC as an investment company. Investments in IMET are valued at IMET's share price, the price for which the investment could be sold.

a. Deposits

At year-end the carrying amount of the Village's deposits totaled \$2,691,666 and the bank balances totaled \$2,753,004. The bank balances can be categorized as follows:

		Bank Balances
Category 1 Deposits covered by federal depository insurance or by collateral held by the Village, or its agent, in the Village's name.	\$	2,753,004
Category 2 Deposits covered by collateral held by the pledging financial institution's trust department, or by its agent, in the Village's name.		-
Category 3 Deposits covered by collateral held by the pledging financial institution, or its trust department, or its agent but not in the Village's name, and deposits which are uninsured and uncollateralized.		
TOTAL DEPOSITS	_\$_	2,753,004

For pension trust funds, the types of deposits authorized and the mix of credit risk categories do not differ significantly from the other funds of the Village.

b. Investments

The Village's investments are categorized to give an indication of the level of custodial credit risk assumed by the entity at year-end. Category 1 includes investments that are insured or registered or for which the securities are held by the Village or its agent in the Village's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the counterparty's trust department or agent in the Village's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty, or by its trust department or agent but not in the Village's name, and uninsured, unregistered investments held by the counterparty in the Village's name.

2. DEPOSITS AND INVESTMENTS (Continued)

b. Investments (Continued)

At year end, the Village's investment balances were as follows:

		Fair		
	1	2	3	Value
U.S. Government Securities U.S. Agency Securities	\$ 14,729,906 21,127,342	\$ -	\$ - 5	14,729,906

Tilliois rungs				9,402,284
TOTAL INVESTMENTS			() ===	55,997,149

^{* (}Not Subject to Risk Categorization)

3. RECEIVABLES

The County Assessors are responsible for assessment of all taxable real property, except for certain railroad property which is assessed directly by the State.

Property taxes are levied in DuPage County by the last Tuesday in December, on the assessed valuation as of January 1. The tax levy becomes an enforceable lien against the property on January 1 of the year following the tax levy year. These taxes are collected by the County Collector and are submitted to the County Treasurer, who remits to the Village units their respective share of the collections.

Taxes levied in one year become due and payable in two installments during the following year. The DuPage County installments are due June 1 and September 1.

The 2002 property tax levy is recorded as a receivable, net of estimated uncollectibles. Based upon collection histories, the Village has provided at April 30, 2003 an allowance for uncollectible real property taxes. All uncollected taxes relating to prior years' levies have been written off.

For governmental funds, only property taxes which are intended to finance the current fiscal year and collected within 60 days subsequent to year-end are recorded as revenue.

The 2002 taxes are intended to finance the 2004 fiscal year and are not considered available for current operations and are, therefore, shown as deferred revenue. The 2003 tax levy has not been recorded as a receivable at April 30, 2003, as the tax has attached as a lien on property as of January 1, 2003, however, the tax will not be levied until December 2003 and, accordingly, is not measurable at April 30, 2003.

4. CAPITAL ASSETS

Capital asset activity for the year ended April 30, 2003 was as follows:

	Beginning Balance Increases Decreases		ecreases	Ending Balance

5. LONG-TERM DEBT

a. Tax Increment Financing Bonds

The Village issues bonds where the Village pledges incremental tax income derived from a separately created tax increment financing district. These bonds are not an obligation of the Village and are secured only by the incremental revenues generated by the district and are recorded in the governmental activities.

Tax increment financing bonds currently outstanding are as follows:

\$4,690,000 Senior Lien			luctions	 April 30	1	Portion
Tax Increment Revenue Bonds, dated February 7, 1997, due in annual installments of \$60,000 to \$490,000 beginning January 1, 1997 through January 1, 2016 plus a final payment of \$795,000 due January 1, 2017 plus interest at 7.875% due each January 1 and July 1. TIF	\$ 4,475,000	- :	\$ 100,000	\$ 4.375,000	\$	115,000

b. Loans Payable

The Village entered into two loans payable to provide funds for the acquisition of capital assets. The loans payable were issued for business-type activities. Therefore, the liabilities are reported in the business-type column. The loans payable currently outstanding are as follows:

Issue	Fund Debt Retired by	Balances May 1	Additions	Reductions	Balances April 30	Current Portion
\$10,394,969 EPA Loan dated August 27, 1991, at 3.58% simple interest rate.	Water and Sewer	\$ 6,916,271	\$ -	\$ 495,775	\$ 6,420,496	\$ 513,682
\$7,550,954 EPA Loan II dated August 28, 2002 at 2.57% simple interest rate*.	Water and Sewer		3,577,950	_	3,577,950	
TOTAL LOANS PAYABLE		\$ 6,916,271	\$ 3,577,950	\$ 495,775	\$ 9,998,446	\$ 513,682

^{*} The total amount of the loan authorized by the EPA was \$7,550,954, however as of April 30, 2003 the Village had only requested funds in the amount of \$3,555,770.

c. Debt Service Requirements to Maturity

Annual debt service requirements to maturity are as follows:

Fiscal Year										
Ending	Tax Incr	ement Financi	ng Bonds							
April 30	Principal	Interest	Total	Principal	Interest	Total				
2004	\$ 115,000	\$ 344,531	\$ 459,531	\$ 513,682	\$ 225,297	\$ 738,979				
2005	135,000	335,475	470,475	532,237	206,742	738,979				
2006	155,000	324,845	479,845	551,461	187,518	738,979				
2007	180,000	312,637	492,637	571,380	167,599	738,979				
2008	200,000	298,462	498,462	592,018	146,961	738,979				
2009	230,000	282,712	512,712	613,403	125,576	738,979				
2010	255,000	264,600	519,600	635,559	103,420	738,979				
2011	290,000	244,519	534,519	658,516	80,463	738,979				
2012	325,000	221,681	546,681	682,302	56,677	738,979				
2013	360,000	196,088	556,088	706,947	32,032	738,979				
2014	400,000	167,738	567,738	362,991	6,499	369,490				
2015	445,000	136,238	581,238	-	, <u>-</u>	-				
2016	490,000	101,194	591,194	-	_	-				
2017	795,000	62,606	857,606	_	_	-				
TOTAL	\$4,375,000	\$3,293,326	\$7,668,326	\$6,420,496	\$1,338,784	\$7,759,280				

^{*} Debt service to maturity for the EPA Loan II will not be determined until the final draw down on the loan and has, therefore, been excluded from this table.

d. Changes in other governmental activities long-term liabilities during the fiscal year were as follows:

	I	Balances May 1	A	dditions	Reduction	ns	Balances April 30	Current Portion
Compensated Absences Payable	\$	527,616	\$	59,655	\$	_	\$ 587,271	\$ _

e. Legal Debt Margin

The Village is a home rule municipality.

Chapter 65, Section 5/8-5-1 Illinois Compiled Statutes governs computation of the legal debt margin.

e. Legal Debt Margin (Continued)

"The General Assembly may limit by law the amount and require referendum approval of debt to be incurred by home rule municipalities, payable from ad valorem property tax receipts, only in excess of the following percentages of the assessed value of its taxable property ...(2) if its population is more than 25,000 and less than 500,000 an aggregate of one percent: ...indebtedness which is outstanding on the effective date (July 1, 1971) of this constitution or which is thereafter approved by referendum... shall not be included in the foregoing amounts."

To date the General Assembly has set no limits for home rule municipalities.

f. Advance Refunding - Revenue Bonds

On April 30, 1982, the Village passed an ordinance directing the execution of an escrow agreement in order to refund Water and Sewer Revenue Bond Series of 1967 issued by the Village and outstanding at the time in the amount of \$1,620,000.

Although there has been no legal defeasance (satisfaction of debt) in this transaction, all conditions which normally satisfy defeasance of the \$1,620,000 of the Water and Sewer Revenue Bond Series of 1967 have been met.

Water and Sewer Revenue Bond Series of 1967 to be paid from escrow in the future are as follows:

Ending April 30	Principa	<u>al</u>
2004	\$ 95,0	000
2005	95,0	
2006	90,0	
2007	95,0	
	\$ 375,0)00

g. Debt Refunding Note

On July 27, 1999, the Village deposited cash on hand of \$4,392,825 into an irrevocable escrow to advance refund, through an in-substance defeasance, \$4,415,000 of the Series 1996 Tax Increment Refunding Revenue Bonds. As a result, the Series 1996 Bonds are considered to be defeased and the escrowed assets and the liability for the bonds have been removed from these financial statements. At April 30, 2003, \$2,410,000 of the defeased bonds are outstanding.

h. Senior Lien Tax Increment Revenue Bonds Series 1997

The ordinance authorizing the issuance of \$4,690,000 of Senior Lien Tax Increment Revenue Bonds Series 1997 provided for the creation of separate funds designated as the Special Tax Allocation Fund and the Incremental Sales Tax Fund. All of the incremental property taxes and any other revenues from any source other than incremental sales taxes shall be deposited into the Special Tax Allocation Fund. All of the incremental sales taxes shall be deposited into the Incremental Sales Tax Fund.

All amounts deposited into the Special Tax Allocation Fund shall be allocated to the following accounts in the priority listed:

The Program Expense Account - There is hereby created a special account to be known as the Program Expense Account. The amount deposited into the Program Expense Account is the amount necessary to pay program expenses for the current and succeeding bond year. The remainder will then be deposited into the following account:

The Senior Lien Principal and Interest Account - There is hereby created a special account to be known as the Senior Lien Principal and Interest Account. The amount deposited into the account is the amount necessary to pay the principal and interest requirements due subsequent to January 1. The monies deposited into this account can be used only to pay the outstanding principal and interest on the bonds. The remainder, if any, will then be deposited into the following account:

The Senior Lien Reserve Account - There is hereby created a special account to be known as the Senior Lien Reserve Account. The amount deposited into the account is the debt service reserve requirement, which is equal to 150% of the average annual debt service of the bonds, excluding the final payment due January 1, 2017. The monies deposited into the account shall be used to replace any deficiency in the Senior Lien Principal and Interest Account and to pay the final principal and interest maturing January 1, 2017. The remainder, if any, will then be deposited into the following account:

The Junior Lien Principal and Interest Account - There is hereby created a special account to be known as the Junior Lien Principal and Interest Account. The amount deposited into the account is the principal and interest requirements for any junior lien bonds due the subsequent January 1. The monies deposited into this account can be used only to pay the outstanding principal and interest on the junior lien bonds and to replenish any deficiencies in the Senior Lien Principal and Interest Account and the Senior Lien Reserve Account. The remainder, if any, shall be deposited into the following account:

h. Senior Lien Tax Increment Revenue Bonds Series 1997 (Continued)

The Junior Lien Reserve Account. There is hereby created a special account to be known as the Junior Lien Reserve Account. The amount deposited into the account is the debt service reserve requirement, if any, on the Junior Lien Bonds, determined upon issuance of said bonds. The monies deposited into the account shall be used to replace any deficiency in the Junior Lien Principal and Interest Account, the Senior Lien Reserve Account and the Senior Lien Principal and Interest Account. The remainder, if any, shall be deposited into the following account:

The General Account - There is hereby created a special account to be known as the General Account. The monies deposited into this account shall be used first to replenish any deficiencies in the accounts listed above, with any remainder used for the following purposes:

- 1. For the purpose of paying any project costs, including but not limited to the payment of debt service on obligations issued subordinate to the Bonds, any Additional Bonds or any Junior Lien Bonds; or
- 2. For the purpose of redeeming outstanding bonds; or
- 3. For the purpose of purchasing outstanding bonds at a price not in excess of par and accrued interest and applicable redemption premium to the date of purchase; and,
- 4. Thereafter, shall be used by the Village for one or more of the following purposes, without any order of priority among them:
 - a. For the purpose of refunding, advance refunding or prepaying any outstanding bonds; or
 - b. For the purpose of establishing such additional reserves as may be deemed necessary by the Corporate Authorities; or
 - c. For the purpose of reimbursing the Village for any advances from its general corporate funds made in connection with the Bonds, any Additional Bonds, any Junior Lien Bonds, the Plan, the Project or the Area; or

- h. Senior Lien Tax Increment Revenue Bonds Series 1997 (Continued)
 - 4. Thereafter, shall be used by the Village for one or more of the following purposes, without any order of priority among them: (Continued)
 - d. For the purpose of distributing funds to the taxing districts or municipal corporation having power to tax real property located in the Area, in accordance with the Act; or
 - e. For any other purpose set forth under the Plan or the Project as may be authorized under the Act.

All Incremental Sales Taxes are to be deposited into the Incremental Sales Tax Fund and shall be allocated to the following accounts in the priority listed:

The Village Contribution Account - There is hereby created a special account to be known as the Village Contribution Account. The monies deposited into this account are restricted for any Village contribution to be made to the Special Tax Allocation Fund and related accounts for any deficiencies in accordance with the bond ordinance. The remainder, if any, shall be deposited into the following account:

The Village Account - There is hereby created a special account to be known as the Village Account. The monies shall be deposited into this account until such time as the account balance equals \$100,000 which may then be transferred to the Village to be used for any purpose.

i. Conduit Debt

The Village has issued Industrial Development Revenue Bonds (IDRBs) to provide financial assistance to private organizations for the construction and acquisition of industrial and commercial improvements deemed to be in the public interest. The bonds are secured solely by the property financed and are payable solely from the payments received on the underlying mortgage loans on the property. The Village is not obligated in any manner for the repayment of the bonds. Accordingly, the bonds outstanding are not reported as a liability in these financial statements. As of April 30, 2003, there were 7 IDRBs outstanding. The aggregate principal amount payable for the 3 series which could be determined was \$24,150,215. The aggregate principal payable for the 4 other series of IDRBs could not be determined; however, their original issue amounts totaled \$9,200,000.

6. INDIVIDUAL FUND DISCLOSURES

The composition of interfund balances as of April 30, 2003, is as follows:

Due From/To Other Funds

Receivable Fund	Payable Fund		Amount
General Corporate	Civic Enhancement	\$	59,620
General Corporate	Water and Sewer	Ψ	120,086
General Corporate	Civic Enhancement		20,912
General Corporate	Water & Sewer		3,625
Geneva Crossing TIF	General Corporate		83,488
Police Pension	General Corporate		30
TOTAL		_\$_	287,761

In addition, the civic enhancement fund reported a deficit fund balance of \$22,517 as of April 30, 2003.

Finally, a transfer occurred from the Garage Fund to the General Fund and the Capital Assets Used in the Operations of Governmental Funds. In order to close the Garage Fund, the General Fund recorded a transfer in of \$204,230. However, the Garage Fund recorded a transfer out of \$780,176. Additionally, the Garage Fund transferred its fixed assets in an amount equal to the net book value on the date of transfer to the Capital Assets Used in the Operations of Governmental Funds. The Capital Assets Used in the Operations of Governmental Funds only reports assets and investments in capital assets for the general government; therefore, the transfers are not reciprocal by the amount of fixed assets transferred of \$575,946.

7. COMMITMENTS - DUPAGE WATER COMMISSION (COMMISSION)

The Village is a customer of the DuPage Water Commission, and has executed a water supply contract with the Commission for a term ending in 2024. The Contract provides that the Village pay its proportionate share of "fixed costs" (debt service and capital costs) estimated at \$900,000 per year through fiscal year ending April 30, 2013 to the Commission, such obligation being unconditional and irrevocable whether or not water is ever delivered. The Village has established that these costs will be capitalized until delivery of water, at which time the costs will be amortized using the straight-line method over the remaining term of the contract. During the fiscal year ending April 30, 1993, the Village began receiving water from the Commission, thus fixed costs are now expensed along with the other "operation and maintenance" charges from the Commission. The fixed costs are estimates which have been calculated using the Village's current allocation percentage of 5.2231%. In future years the estimates and the allocation percentage will be subject to change. Estimates for the remaining years of the contract are not currently available. However, the Village does not expect the minimum amounts for the remaining years of the contract to materially vary from the amount presented above.

8. RISK MANAGEMENT

a. Intergovernmental Personnel Benefit Cooperative (IPBC)

The Village participates in the Intergovernmental Personnel Benefit Cooperative (IPBC). IPBC is a public entity risk pool established by certain units of local government in Illinois to administer some or all of the personnel benefit programs (primarily medical, dental and life insurance coverage) offered by these members to their officers and employees and to the officers and employees of certain other governmental, quasi governmental and nonprofit public service entities.

The IPBC receives, processes and pays such claims as may come within the benefit program of each member. Management consists of a Board of Directors comprised of one appointed representative from each member. In addition, there are two officers: a Benefit Administrator and a Treasurer. The Village does not exercise any control over the activities of the IPBC beyond its representation on the Board of Directors.

b. Intergovernmental Risk Management Agency (IRMA)

The Village participates in the Intergovernmental Risk Management Agency (IRMA). IRMA is an insurance pool whose members are Illinois municipalities. IRMA manages and funds first party property losses, third party liability claims, workers' compensation claims and public officials liability claims of its member municipalities. The Village's payments to IRMA are displayed on the financial statements as expenditures/expenses in appropriate funds.

Each member assumes the first \$1,000 of each occurrence, and IRMA has self-insurance retentions at various amounts above that level. There have been no significant changes from the prior year and settlements have not exceeded coverage in any of the prior three years.

Management consists of a Board of Directors comprised of one appointed representative from each member. In addition, there are two officers, a Risk Manager and a Treasurer. The Village does not exercise any control over the activities of IRMA beyond its representation on the Board of Directors.

8. RISK MANAGEMENT (Continued)

b. Intergovernmental Risk Management Agency (IRMA) (Continued)

Initial contributions are determined in advance of each membership year based on the individual member's eligible revenue as defined in the by-laws of IRMA and assessment factors based on past member experience and the funding need for the membership year. The Board of Directors may require that supplemental contributions be made by members to ensure adequate funds are available to meet the obligations applicable to the membership year. Members have a contractual obligation to fund any deficit of IRMA attributable to a membership year during which they were a member. The Village is not aware of any additional amounts owed to IRMA at April 30, 2003, for the current or prior claim years.

9. CONTINGENT LIABILITIES

a. Litigation

The Village is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the Village's attorney that resolution of these matters will not have a material adverse effect on the financial condition of the Village.

b. Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the Federal Government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Village expects such amounts, if any, to be immaterial.

c. DuPage Water Commission

The Village's water supply agreement with the DuPage Water Commission provides that each customer is liable for its proportionate share of any costs arising from defaults in payment obligations by other customers.

9. CONTINGENT LIABILITIES (Continued)

d. Economic Development Agreement

The Village entered into an economic development agreement dated June 30, 1982, with a developer to reimburse the developer for the cost of certain land improvements regarding creek bed relocation and wetlands mitigation. The agreement requires the Village to rebate to the developer 55% of the sales tax over \$50,000 in each calendar year. The maximum amount to be rebated by the Village from sales tax revenues generated by the development is \$1,000,000 over twenty years. A \$62,484 liability for this has been recorded in the Village's financial statements as of April 30, 2003, for these rebates. The total rebates incurred to date as of April 30, 2003 was \$393,557.

10. DEFINED BENEFIT PENSION PLANS

The Village contributes to two defined benefit pension plans, the Illinois Municipal Retirement Fund (IMRF), an agent-multiple-employer public employee retirement system and the Police Pension Plan which is a single-employer pension plan. The benefits, benefit levels, employee contributions and employer contributions for both plans are governed by Illinois Compiled Statutes and can only be amended by the Illinois General Assembly. None of the pension plans issue separate reports on the pension plans. However, IMRF does issue a publicly available report that includes financial statements and supplementary information for the plan as a whole, but not for individual employers. That report can be obtained from IMRF, 2211 York Road, Suite 500, Oak Brook, Illinois 60523.

a. Plan Descriptions

Illinois Municipal Retirement Fund

All employees (other than those covered by the Police plan) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. Pension benefits vest after eight years of service. Participating members who retire at or after age 60 with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute. Participating members are required to contribute 4.5% of their annual salary to IMRF. The Village is required to contribute the remaining amounts necessary to fund the IMRF as specified by statute. The employer contribution rate for the calendar year 2002 was 6.20% of covered payroll.

10. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan

Police sworn personnel are covered by the Police Pension Plan. Although this is a single-employer pension plan, the defined benefits and employee and employer contribution levels are governed by Illinois Compiled Statutes (40 ILCS 5/3-1) and may be amended only by the Illinois legislature. The Village accounts for the plan as a pension trust fund. At April 30, 2003, the Police Pension Plan membership consisted of:

Retirees and Beneficiaries Currently Receiving Benefits	10
Terminated Employees Entitled to Benefits but not	
yet Receiving Them	_
Current Employees	
Vested	36
Nonvested	24
TOTAL	
TOTAL	70

The Police Pension Plan provides retirement benefits as well as death and disability benefits. Covered employees attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive an annual retirement benefit equal to one-half of the salary attached to the rank held on the last day of service, or for one year prior to the last day, whichever is greater. The annual benefit shall be increased by 2.50% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75.00% of such salary. Employees with at least eight years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit. The monthly benefit of a police officer who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3.00% of the original pension and 3.00% compounded annually thereafter. Benefits and refunds are recorded when due in accordance with the terms of the plan.

Employees are required by ILCS to contribute 9.91% of their base salary to the Police Pension Plan. Contributions are recorded when due in accordance with statutory requirements. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plan as actuarially determined by an enrolled actuary. Effective July 1, 1993, the Village has until the year 2033 to fully fund the past service cost for the Police Pension Plan. For the year ended April 30, 2003, the Village's contribution was 10.39% of covered payroll.

10. DEFINED BENEFIT PENSION PLANS (Continued)

b. Significant Investments

There are no significant investments (other than U.S. Government guaranteed obligations) in any one organization that represent 5.00% or more of plan net assets for the Police Pension Plan except for two insurance annuity contracts comprising approximately 5.25% and 6.75% of plan net assets, and a mutual fund comprising approximately 5.76% of plan net assets, respectively. Information for the IMRF is not available.

c. Annual Pension Costs

Employer contributions have been determined as follows:

	Illinois	
	Municipal	Police
	Retirement	Pension
Actuarial Valuation Date	December 31, 2000	May 1, 2002
Actuarial Cost Method	Entry-age Normal	Entry-age Normal
Asset Valuation Method	5 Year Smoothed Market	Actuarial Smoothed Market
Amortization Method	Level Percentage of Payroll	Level Percentage of Payroll
Amortization Period	30 Years, Closed	31 Years, Closed
Significant Actuarial Assumptions a) Rate of Return on Present and Future Assets	7.50% Compounded Annually	8.75% Compounded Annually
b) Projected Salary Increase - Attributable to Inflation	4.00% Compounded Annually	6.50% Compounded Annually
c) Additional Projected Salary Increases - Seniority/Merit	.40 to 11.60%	Not Available

10. DEFINED BENEFIT PENSION PLANS (Continued)

c. Annual Pension Costs (Continued)

Employer annual pension costs (APC), actual contributions and the net pension obligation (asset) (NPO) are as follows. The NPO (asset) is the cumulative difference between the ARC and the contributions actually made.

For	Illinois	
Fiscal	Municipal	Police
Year	Retirement	Pension
2001	\$ 439.646	\$ 200,806
		213,502
2003	•	•

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

April 30, 2003

On or before January 31 of each year, all departments of the Village submit requests for budgets to the Village manager so that a budget may be prepared. Before February 28, the proposed budget is presented to the governing body for review. The governing body holds public hearings and may add to, subtract from, or change the budget, but may not change the form of the budget. A final budget must be prepared and adopted no later than April 30.

The budget is prepared by fund, department and program and includes information on the past year, current year estimates and requested appropriations for the next fiscal year. The administrator is authorized to transfer budgeted amounts within any department; however, transfers between departments or any revisions that alter the total expenditures of any department or any fund must be approved by the governing body. During the year several budget amendments were necessary. The amounts reflected in the financial statements represent the original and the final amended budget.

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted (at the department level) for the governmental, proprietary and the fiduciary funds. The annual appropriated budget is legally enacted and provides for a legal level of control at the department level. All annual budgets lapse at fiscal year end.

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

Motor Fuel Tax Fund - to account for the operation of street maintenance and capital projects as authorized by the Illinois Department of Transportation. Financing is provided from the Village's share of gasoline taxes.

Civic Enhancement Fund - to account for revenues and expenditures as a result of the Village levying a 5% Hotel/Motel tax. The ordinance provides that revenue collected from the tax should be expended solely to promote tourism, conventions and civic enhancement in the Village.

Geneva Crossing TIF Fund - to account for the financing of the Geneva Crossing TIF District, including the incremental tax revenues and repayment of the senior lien TIF revenue bonds.

INTERNAL SERVICE FUND

Municipal Garage Fund - to account for the provision of garage services to the various departments of the Village. All activities necessary to provide such services are accounted for in this fund. Financing is provided by charging the user departments for the cost of the services which they utilize. This fund was closed during the year ended April 30, 2003.

Village of Carol Stream	Public Employees Position Schedule	5,000 each position	12/31/04

The Village participates in the Intergovernmental Personnel Benefit Cooperative (IPBC). IPBC is a public entity risk pool established by certain units of local government in Illinois to administer some or all of the personnel benefit programs (primarily medical, dental, and life insurance coverage) offered by these members to their officers and employees and to the officers and employees of certain other governmental, quasigovernmental, and nonprofit public service entities. IPBC pays each member's claims and purchases excess risk coverage.

The Village participates in the Intergovernmental Risk Management Agency (IRMA). IRMA manages and funds first party property losses, third party liability claims, Workers' Compensation claims, and Public Officials Liability claims of its member municipalities.

Member deductibles, self-insured retentions, and excess coverages are as follows:

		lember ductibles	 IRMA elf-Insured etentions	Čov c	cess Maximum verage inclusive of Deductibles and Retentions)

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH STATE OF ILLINOIS PUBLIC ACT 85-1142

The Honorable Mayor Members of the Board of Trustees Village of Carol Stream, Illinois

We have audited the basic financial statements and the combining and individual fund statements of the Village of Carol Stream, Illinois as of and for the year ended April 30, 2003, and have issued our report thereon dated July 24, 2003. The financial statements are the responsibility of the Village's management. Our responsibility is to express an opinion on the eligibility for costs incurred incidental to the implementation of the redevelopment plan and redevelopment projects associated with the Geneva Crossing TIF District pursuant to Subsection (q) of Section 11-74.4-3 of the Illinois Tax Increment Redevelopment Allocation Act.

Our audit was made in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The Village of Carol Stream, Illinois' management is responsible for the Village's compliance with laws and regulations. In connection with our audit referred to above, we selected and tested transactions and records to determine the Village's compliance with State of Illinois Public Act 85-1142, "An Act in Relation to Tax Increment Financing".

The results of our test indicated that for the items tested, the Village of Carol Stream, Illinois complied with Subsection (q) of Section 11-74.4-3 of Public Act 85-1142.

Aurora, Illinois July 24, 2003 Schich Gardner & Co LLP
