Local Amendments to ICC International Solar Energy Provisions, 2018 Edition

---

### **CONTENTS**

	PAGE NO.
General .....	1

**GENERAL**

**General.** These regulations are a collection of various code requirements for the installation of solar thermal and photovoltaic systems.

The three section: commercial, residential and electric contain requirements for the system installations.

The following codes are referenced in the provisions:

IBC – International Building Code – 2018

IECC – International Energy Conservation Code - 2018

IFC – International Fire Code - 2018

IMC – International Mechanical Code - 2018

IPC – International Plumbing Code - 2018

ISPSC – International Swimming Pool and Spa Code - 2018

R – International Residential Code – Building Provisions - 2018

M – International Residential Code – Mechanical Provisions - 2018

N – International Residential Code – Energy Provisions - 2018

P – International Residential Code – Plumbing Provisions - 2018

NEC – National Electric Code - 2017

Local amendments to the above-referenced adopted codes shall apply.

ICC 900/ RCC300-2015, ICC 901/RCC 100-2015, Resource A and B are adopted.
