New Revenue Threat

February 19, 2020 Governor's Budget Address:

- 5% LGDF (Income Tax) diversions taken from Illinois municipalities in each of the last 3 state fiscal years (10% in SFY18) is expected to continue beginning July 1, 2020.
- In FY21, an ADDITIONAL 5% LGDF diversion will be taken and held in reserve. If the Governor's proposed graduated income tax (GIT) referendum passes in November 2020, the reserved funds will be returned to municipalities. If the proposed GIT fails, the funds will be lost, likely forever. Revenue share percentages will be reduced under a GIT, continuing to freeze-out municipalities from any gains in taxes traditionally shared.
- Estimated revenue loss to Carol Stream = \$210,000.
- No changes proposed to draft FY21 budget resulting from this proposal. Will assess the situation following the November election/referendum and make adjustments to budget as needed.

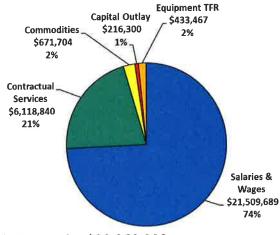

FY21 Proposed Expenditures

FY21 Proposed Budget is balanced as proposed

Projected Revenues \$ 28,950,000
Projected Expenditures 28,950,000

General Fund Budget - FY21 Salaries & Wages

- Personal Services (Salaries) show a <u>decrease</u> of 1.8% compared to the FY20 budget.
 - Total regular FT and PT staffing proposed for FY21 is reduced by 2.5 Full-Time-Equivalent positions.
 - Reduced costs due to current year retirements / resignations and replacement employees hired / promoted at lower salaries.
 - Net budgeted salary decrease in Engineering, Police, PW Streets, PW Garage, and Municipal Building.
 - Reallocation of budgeted Public Works salaries between General Fund and Water & Sewer Fund to more accurately reflect actual experience. This results in a reduction in GF salaries and an increase in salaries allocated to the W&S Fund.
 - In FY20, we budgeted an additional \$200,000 for payment of accrued leave balances at retirement for anticipated retirements. This does not recur in FY21.
- Seasonal Help (17.3% above FY20 budget)
 - Addition of one seasonal position in Community Development beginning in FY21 (UDO Project).
 - Future cost increases as Illinois minimum wage steps up to \$15/hour by 1/1/2025.
- Overtime (7.7% above FY20 budget)
 - In FY20 we are tracking above budget, yet below FY19 actual expenses. FY21 budget is 7.7% above FY20 budget but also below FY19 actual expenses.
 - Actual overtime expenses are highly dependent upon shift coverage and in many cases the frequency and severity of weather related call-outs.
 - Police Department overtime increases covered by increased grant related activity.

Pensions

- IMRF (14.5% above FY20 budget) employer contribution rate increased from 11.48% to 13.63% of payroll between 2019 and 2020 (18.7% increase in rate). This was due to poor investment returns in CY2018 (-4.25%) combined with a reduction in investment return assumption to 7.25%. This should moderate next year based on CY2019 returns of over 19.7%.
- Police Pension Fund (8.6% above FY20 budget) Contribution to increase by \$224,850 to a total of \$2,850,352 for FY21. Fund returns as of 12/31/19 were similarly over 19% year to date which should benefit future years.

RE:

Recommendation for Approval of Amendment No. 4 to the Agreement for Operations, Maintenance and Management Services of the Water Reclamation

Center (WRC)

BACKGROUND

In December 2015, the Village Board approved a ten-year agreement with OMI (now Jacobs Engineering) for operation, maintenance and management of the Water Reclamation Center (WRC). The initial agreement year covered the period from May 1, 2016 through April 30, 2017. The agreement included a provision for annual review of costs by the Village and OMI, including a formula for a default increase should the Village and OMI fail to reach agreement.¹

I have worked with OMI staff to review the various cost centers included in the base fee and to develop a Capital Expenditure ("CapEx") program for the coming fiscal year. The attached proposal requests an increase to the base fee (which covers operating expenses) of \$37,209 (2.11%) for the period May 1, 2020 through April 30, 2021, which is slightly lower than allowed by the formula prescribed in the Agreement. Included in the proposed amendment is an increase to the Repairs line item of \$5,000 (from \$60,000 to \$65,000)². The CapEx category will remain at \$125,000 as established by the Agreement. Three years ago, an additional annual amount of \$11,185 was added to reflect the rental fees for the ComEd transfer switch that was replaced in Fall 2016. This ComEd charge is included in the Agreement each year, but is not subject to an annual increase. As a result, the combined operating and capital budget increase would total \$37,209 (from \$1,888,549 to \$1,925,758)³.

RECOMMENDATION

It is recommended that the Village Board approve Amendment No. 4 to the Agreement for Operations, Maintenance and Management Services of the Water Reclamation Center in the amount of \$1,925,758 for the period May 1, 2020 through April 30, 2021.

¹ The agreement also provides \$50,000 of free engineering services from Jacobs in each of two five-year periods.

² The Repairs line item was increased to \$60,000 in 2013, and has been exceeded in each of the last three years by an average of nearly \$3,200. The Village is responsible for 100% of any overage in the Repairs budget.

³ The proposed budget projected a total expense of \$1,945,000 for FY2021.

RE:

Recommendation - A Motion Authorizing the Village Manager to Enter

Into an Employee Leasing Agreement with GovTemps USA for Contract

Part-Time Secretarial Services

There has been a vacancy in a part-time secretarial position in Public Works since late 2019. Staff has determined that it is most beneficial at this time to fill this position with a contract employee. Due to the extended vacancy there are funds remaining in the current fiscal year to cover the cost of a contract employee for the balance of the year. Funds have been included in the proposed FY21 budget to cover costs for the entire year. The Village has entered into agreements with GovTemps USA for several contractual positions over the past several years, including the Public Works AMR assistant position and several others in the Administration and Finance departments.

The contract employee would average nineteen (19) hours per week at a rate of \$25.20/hr. The initial period of the proposed agreement (attached) will run from March 30, 2020 through April 30, 2021, in order to line up with subsequent fiscal years. Two, one-year extensions can be exercised at the Village's discretion. The attached Employee Leasing Agreement conforms to similar agreements between the Village and GovTemps USA over the past several years.

Staff recommends approval of a Motion authorizing the Village Manager to enter into the attached Employee Leasing Agreement with GovTemps USA for contract part-time secretarial services for the period March 30, 2020 through April 30, 2021.

Section 6.03. Survival. The provision of this Section 6 shall survive any termination of this Agreement.

SECTION 7 DISCLOSURE AND INDEMNIFICATION PROVISIONS

Section 7.01. Indemnification by GovTemps. GovTemps agrees to indemnify, defend and hold the Municipality and its related entities or their agents, representatives or employees (the "Municipality Parties") harmless from and against all claims, liabilities, damages, attorney's fees, costs and expenses ("Losses") (a) arising out of GovTemps breach of its obligations under this Agreement, (b) related to the actions or conduct of GovTemps and its related business entities, their agents, representatives and employees, including the Work Site Employees (the "GovTemps Parties"), taken or not taken with respect to the Worksite Employees that relate to events or incidents occurring during or subsequent to the term of this Agreement, and (c) arising from any act or omission on the part of GovTemps or any of the GovTemps Parties.

The Municipality agrees to indemnify, defend and hold the GovTemps Parties harmless from and against all Losses (a) arising out of the Municipality's breach of its obligations under this Agreement, and (b) arising from any act or omission on the part of the Municipality or any of the Municipality Parties. Notwithstanding the foregoing, the Municipality shall have no obligations to the GovTemps Parties under this Section with respect to Losses arising out of events or incidents occurring before or after the term of this Agreement.

Section 7.03. Indemnification Procedures. The Party that is seeking indemnity (the "Indemnified Party") from the other Party (the "Indemnifying Party") pursuant to this Section 7, shall give the Indemnifying Party prompt notice of any such claim, allow the Indemnifying Party to control the defense or settlement of such claim and cooperate with the Indemnifying Party in all matters related thereto; provided however that, prior to the Indemnifying Party assuming such defense and upon the request of the Indemnified Party, the Indemnifying Party shall demonstrate to the reasonable satisfaction of the Indemnified Party that the Indemnifying Party (a) is able to fully pay the reasonably anticipated indemnity amounts under this Section 7 and (b) takes steps satisfactory to the Indemnified Party to ensure its continued ability to pay such amounts. The failure to promptly notify the Indemnifying Party of any claim pursuant to this Section shall not relieve such Indemnifying Party of any indemnification obligation that it may have to the Indemnified Party, except to the extent that the Indemnifying Party demonstrates that the defense of such action has been materially prejudiced by the Indemnified Party's failure to timely give such notice.

Section 7.04. Survival of Indemnification Provisions. The provisions of this Section 7 shall survive the expiration or other termination of this Agreement.

Village of Carol Stream Interdepartmental Memo

TO:

Robert Mellor, Village Manager

FROM:

Philip J. Modaff, Director of Public Works

DATE:

RE:

Recommendation to Award a Contract for Truck Rehabilitation Services

The FY20 budget includes \$160,000 for the rehabilitation of two large dump trucks (#73 and #78). Truck #73 was purchased in 2003 and has approximately 26,000 miles; truck 78 is a 2004 model with around 25,000 miles. Similar rehab work has been performed on six other trucks in the past four years, including two in the current fiscal year. The goal is to extend the life of these trucks for at least ten years and defer a replacement cost of two to three times the rehabilitation expense.

The work that is planned for truck each will generally include replacement of the dump body and salt-spreader, replacement of the entire hydraulic system from front to back, installation of camera systems, and replacement of the lighting package and snow plow¹.

The truck rehabilitation services are offered under a contract through Sourcewell (formerly the National Joint Powers Alliance), of which Carol Stream is a member. Sourcewell allows government agencies who become members to take advantage of jointly bid contracts for all types of services and equipment. The contractor is Henderson Products, of Huntley, IL, working under Sourcewell contract #41660 (see attached). The Streets and Garage Supervisors have worked closely with Henderson to develop specifications for this work to meet our needs and have inspected the Henderson facility and work process. Attached you will find proposals for each truck rehab with a total combined cost of \$153,956.00. The additional frame painting work and final up-fitting costs to be done by others outside of this contract will total \$4,900.00 for the two trucks, bringing the grand total for the rehab work to \$158,856.

Due to the extended time needed for fabrication and delivery of parts and equipment, and the installation time required, staff is requesting that the order for this work be placed immediately following approval by the Mayor and Board of Trustees. On this time frame, we are confident that delivery of the rehabilitated trucks will occur prior to the next winter season. No invoicing would occur until the rehabilitations are complete and accepted by staff.

I recommend that the Village Board approve a Motion to award a contract for truck rehabilitation services to Henderson Products under Sourcewell contract number 080818-HPI in the amount of \$153,956.00, pursuant to the provisions of Section 5-8-3(B) and subsection 5-8-14(L) of the Carol Stream Code of Ordinances. Furthermore, that staff be authorized to place the order for these services immediately.

Attachments

¹ Prior rehabs included sandblasting and recoating of the truck frame, but we have been unsatisfied with the end-product on several of the trucks. Therefore, we will send the trucks to a local vendor who specializes in this type of work.

Village of Carol Stream Interdepartmental Memo

TO:

Bob Mellor, Village Manager

FROM:

Philip J. Modaff, Director of Public Works

DATE:

March 11, 2020

RE:

Purchase of AMR's for the AMR Replacement Program

The proposed FY21 budget provides \$350,000 for the purchase of AMR's and related supplies for the AMR Replacement Program. Prior purchases were made without a bid process from a sole source provider, but that sales arrangement has since changed. Therefore, Public Works sought bids for the purchase of the equipment and received one responsive bid as follows:

	BID
VENDOR	AMOUNT
Midwest Meter, Inc.	\$349,193.00

From prior experience we know that delivery time can be around 2-3 months. In order to prevent the program from slowing or stopping in the new fiscal year, staff is recommending that this large order be approved now by the Village Board and immediately placed with the supplier. Since funding for this purchase comes from the following fiscal year (FY21), bid specifications clearly stipulate that the Village will not take delivery of the equipment, nor pay any invoice, until the start of the new fiscal year.

Staff recommends that the Village Board approve a Motion awarding a bid for the purchase of AMR's to Midwest Meter, Inc., in the amount of \$349,193.

Attachment

¹ A second bid was received but was not responsive in several critical areas.

Village of Carol Stream Interdepartmental Memo

TO:

Mr. Robert Mellor

Village Manager

FROM:

Stephen F. Schmidt M Interim Director of Police

DATE:

March 5, 2020

SUBJECT:

Purchase of High Risk Ballistic Vests

For many years law enforcement officers have worn ballistic vests to protect them from being shot in the line of duty. These vests have been designed to stop rounds fired from most handguns, but not from assault rifles, which have been used in numerous shooting incidents in the United States in recent years.

Point Blank Enterprises, Inc. has introduced a new high velocity ballistic vest which has been tested and approved by the National Institute of Justice, which tests and sets standards for ballistic vests. This vest, Model SPLT555, consists of two heavy duty steel plates for front and back coverage and are fitted in a carrier, which will protect vital organs. This ballistic vest is designed for responding officers who are the first on the scene of reported active shooters. As the vests are quite heavy, they are designed to be worn only when responding to active shooter incidents. The high velocity ballistic vest is designed for one size fits all and an officer can wear it over their issued ballistic vest.

It is our intention to place a vest in each police vehicle so they are always available. Some identified vehicles will have two vests. In total we are seeking authorization to purchase 42 of these vests, at a cost of \$295.00 per vest plus shipping. The total expenditure would be \$12,390 plus \$250 shipping costs. Funds are available in the existing Federal DOJ Seizure Account for small equipment, 03395000-53350.

The purchase will be made through JG Uniforms, Chicago, Illinois, which is the local distributor for Point Blank Enterprises. The vests should be delivered by the end of April, 2020.

Thank you for your consideration.

Village of Carol Stream Interdepartmental Memo

TO:

Robert Mellor, Village Manager

FROM:

DATE:

RE:

Agenda Item for the Village Board Meeting of March 16, 2020

Continued Public Hearing for an Annexation Agreement for the V Holdings, Inc. Property at 2201 N. Main Street, Wheaton, and Approval of an Annexation Agreement and Subdivision and

Development Agreement

PURPOSE

This memorandum provides direction to the Village Board regarding the above-referenced public hearing continued from the March 2, 2020, Village Board meeting, and a recommendation regarding the Annexation Agreement and Subdivision and Development Agreement for the V Holdings, Inc. project.

BACKGROUND

Staff has been working on a project that would redevelop three parcels totaling 1.67-acres into a two-lot development at the northeast corner of Schmale Road and Geneva Road with a fueling station and convenience store on the corner parcel and new commercial use in a building on the north parcel. In September 2019, the Village of Carol Stream and City of Wheaton entered into an Intergovernmental Agreement (IGA) that allows for disconnection of the corner parcel from Wheaton, thereby allowing for its annexation to Carol Stream, in exchange for revenue sharing from the new fueling station and convenience store.

The Plan Commission/Zoning Board of Appeals (PC/ZBA) recommended approval of the various zoning and development applications at its meeting on December 9, 2019. Since that time, staff and the developer have been negotiating an Annexation Agreement and a Subdivision and Development Agreement for the project. As the agreements were not ready for Village Board action at the public hearing noticed for the March 2, 2020, Village Board meeting, the Board opened and immediately continued the public hearing to the March 16, 2020, meeting.

DISCUSSION

The approval sequencing and steps for this project are somewhat different from the usual process for projects involving annexation, due to the fact that the corner parcel remains in the City of Wheaton at this time. In seeking Village Board approval of the Annexation Agreement (and Subdivision and Development Agreement, which is an exhibit thereto), the Developer will have the assurance needed that the Village

of Carol Stream will approve its project, which will then enable the Developer to close on the purchase of the parcels and file a petition with the City of Wheaton to disconnect the corner parcel from Wheaton, in accordance with the IGA.

The Annexation Agreement contains the customary provisions for the payment of fees and annexation to the Carol Stream Fire Protection District. The Subdivision and Development Agreement outlines actions that will occur following the Developer's acquisition of the parcels and disconnection by the City of Wheaton, and further details public and private improvements required with the redevelopment.

It should be noted that attached to the Subdivision and Development Agreement are ordinances approving the rezoning (to B-3 Service District) of the development parcels, as well as the special uses for planned unit development and an automobile service station. The Village Board will not be acting to approve these ordinances at this time; however their inclusion in the Subdivision and Development Agreement provides the Developer with the certainty needed to proceed. Ordinances approving the annexation of the corner parcel, rezoning the properties, and granting special use approval, will be brought back for Board action after the Developer has closed on the purchase of the properties and the corner parcel has been disconnected from the City of Wheaton.

The Developer will be in attendance at Monday's meeting should the Village Board have any questions.

RECOMMENDATION

Staff recommends that the Village Board accept any comments at the continued public hearing and then close the public hearing. Should the Village Board wish to approve the Annexation Agreement, staff recommends that the Board adopt the Ordinance Approving an Annexation Agreement with V Holdings, Inc. (formerly Vequity Holdings Inc.) and Gagliani Real Estate (current owner of the corner parcel), which will also approve the Subdivision and Development Agreement which is Exhibit D to the annexation agreement.

- 20. - 21. This Agreement may be executed in multiple counterparts of duplicate originals or with multiple signature pages each of which shall constitute and be deemed one and the same document.
- 22. The undersigned Owner warrants that all of the individuals or entities listed herein shall constitute all owners of the Annexation Parcel that they have full authority and power to sign the Agreement and any petitions submitted hereunder and that except as provided in this Agreement, they have not and will not take any action to change ownership in the Annexation Parcel until after this Agreement is recorded.

- 26. A copy of this Agreement and any amendments thereto shall be recorded by the Village at the expense of the Developer.
- 27. 28. In the event that the City of Wheaton fails or refuses to adopt an ordinance disconnecting the Annexation Parcel within one hundred eighty (180) days of the Effective date of this Agreement, upon request of the Developer and at the Developer's sole cost and expense, the Village agrees to use good faith efforts to seek enforcement of the Intergovernmental Agreement dated September 3, 2019, between the Village and the City of Wheaton, including, if necessary, the prosecution of legal action against the City of Wheaton in the Circuit Court of DuPage County. The Village may require that the Developer make payments, in advance, to pay all of the costs and expenses of such enforcement, including but not limited to attorneys' fees. Failure by the Developer to timely pay for such costs and expenses shall alleviate the Village of any further responsibility of enforcement. The inability to gain enforcement of the Intergovernmental Agreement by the Village shall not relieve the Developer from its obligation to pay the costs and expenses of enforcement. During the time enforcement

of the terms of the Intergovernmental Agreement are being prosecuted, the automatic termination date set forth in Paragraph 26 shall be tolled.

RE:

Surplus- Truck 12, Ford F-350

The Department has identified the equipment below to be declared surplus.

Truck 12- 2005 Ford F350 SD, VIN #1FTWX31P35EB72472

This truck was going to be stepped down to replace the old mechanics shop truck back in 2014-2015. However, a Tahoe became available through the Police Department at that time and was subsequently moved to the mechanics garage. Truck 12 was moved back to the streets division where it served as a back-up truck and for snow plowing operations. This truck was scheduled to be used by the previously budgeted Facility Tech in Public Works, but with the elimination of that position, there is no longer a need for this vehicle.

Staff recommends that this item be declared surplus by the Mayor and Board of Trustees and that the Public Works Director be authorized to dispose of it via public auction.

RE:

Surplus Equipment

Staff is requesting the Village Board to declare the following list of electronic equipment surplus that are no longer useful or of value for Village operations and transfer ownership to the Carol Stream Public Library. Please see attachment Exhibit 1.

As per the Intergovernmental Agreement for I.T. Services, the Village's I.T. Department is responsible for the Carol Stream Public Library's technical infrastructure. Though the hard drives noted on Exhibit 1 are no longer useful to the Village, they are superior to the drives currently used by the Library. If approved, I.T. staff will complete a digital sanitization of the drives and reinstall them in the Library computers to improve the Library staff's computing experience. The value of the equipment is approximately \$1000.00 (\$40.00/per hard drive).
