### **NOTICE TO RESIDENTS**

### **“Clearwater Court Rear Yard Drainage Project”**

## **CONSTRUCTION CONTRACT AWARDED**

This notice is to inform you that the Village of Carol Stream’s Board of Trustees has approved Engineering Services Department’s recommendation to award a construction contract to Copenhaver Construction, Inc. (Huntley, IL) that will partially replace a small-diameter storm sewer that clogs frequently, is in poor condition, and that cannot be maintained because the adjacent retaining wall limits access by Public Works Department’s equipment.

The project will temporarily disturb the rear yards of 329, 333, 339, 341, 343 & 353 Clearwater Court and 929, 935 & 941 Kalamazoo Court. Minor impacts to the properties adjacent to the list above may also be expected during construction. All disturbed areas will be restored by the Village’s contractor.

The Board’s approval occurred on September 8<sup>th</sup> and the contractor has until September 24<sup>th</sup> to sign the agreement. The due date for completing construction is November 25, 2020.

If there are any concerns or comments that may impact the contractor’s schedule, please forward them as soon as possible to the Project Manager so they may be communicated prior to commencing construction.

The Engineering Department has created a webpage for this project to provide further information and to update residents on the progress. Unless there are any major developments, no additional notices will be sent and all future communication will be via said website.
